TWO FIRE FIGHTERS ARE BADLY INJURED WHEN AUTOMOBILE HITS A HOSE WAGON

Automobile Driven by Emil Dittler Crashes Into Apparatus Sent Out From Engine House No. 9 to Answer an Alarm From East Georgia Avenue.

DRIVER OF BIG MACHINE DENIES POLICE CHARGE OF RECKLESS DRIVING

Declares He Had Been Vigorously Sounding His Klaxon, and That He Did Not Hear Gong of the Approaching Hose Wagon.

LIST OF INJURED.

C. A. Lowe, hoseman, 387 Pulliam; fractured skull and probable internal wounds.

Eugene R. Fluker, driver, 213 East Georgia avenue; concussion of brain and probable internal injuries.

J. P. Gillespie, hoseman, 453 Central avenue; fractured leg and internal injuries.

Tim Driscoll, lieutenant, 59 East Georgia avenue; gashes about head and face (not serious).

C. S. King, substitute hoseman, 57 Grady Place; bruises and contusions.

Alex Dittler, son of Emile Dittler; cuts about head and face.

Galloping at full tilt downgrade en route to a two-alarm fire, a hose wagon from engine house No. 9, bearing six firemen, was struck by a heavy touring car containing seven passengers and driven by Emil Dittler, Sunday afternoon at 1 o'clock at the corner of Washington street and Georgia avenue.

All of the wagon's occupants were injured. Two are in serious condition. Only one of the car's passengers was hurt. The machine was wrecked. A horse attached to the fire truck was killed outright; its mate was only slightly hurt. The truck was badly damaged.

Mr. Dittler, owner of the machine, a White Six, was put under arrest at police headquarters by Policeman Tom Watson. A charge of reckless driving was docketed against him, and he was assessed bond of $1,000 for appearance at trial Tuesday, February 16, before Judge George Johnson.

DIFFER ON SPEED.

A half dozen witnesses have been subpoenaed by the police in an endeavor to prove that the automobile was exceeding the speed limit to an extent varying from 25 to 30 miles an hour. Versions differ. Mr. Dittler stated, however, that he was traveling no faster than 12 miles.

Hoseman C. A. Lowe, of 387 Pulliam street, is the worst injured. He is at Grady in an unconscious condition, suffering from concussion of the brain. Eugene R. Fluker, driver of the ill-fated truck, is injured internally with a probable fracture of the skull. He, too, had not regained consciousness last night. Fluker lives with his parents at 213 East Georgia avenue.

The escape of the machine's occupants was miraculous. The car was flung up against a tree on the southeast corner. Its passengers were tossed against each other in the tonneau, but none was thrown out. The only victim was Alex, the son of Mr. Dittler.

The remaining occupants were R. A. Baer, M. E. Bodenheimer, Julian Bodenheimer, H. S. Benjamin, Harry Steiman and Mr. Dittler at the wheel. The latter resides at 536 Washington street, and was proceeding home when the accident occurred. His son sustained injuries about the head, face and eyes from flying glass from the shattered windshield.

J. P. Gillespie, hoseman of No. 9, experienced a marvelous escape from instant death. He was thrown from his position on the side running board of the truck over the vehicle 10 feet into the air, landing in the center of the street, where the plunging truck barely missed his body.

FEAR INTERNAL INJURIES.

Gillespie suffers a fractured leg and probable internal injuries. He will be carried to Grady hospital today for an X-ray examination. Both he and Lieutenant Tim Driscoll were carried to their homes after an examination at the hospital. Driscoll, who lives at 59 East Georgia avenue—less than a half block from the scene of the accident—is suffering from contusions of the skull and several deep gashes in the face.

The least injured of the truck's occupants was Sub-Hoseman C. S. King, of 67 Grady place, West End. King was substituting at No. 9 station, and was on one of his first runs.

The operator in the signal office at fire headquarters had received a double alarm from a fire at 215 East Georgia avenue at 12:50 o'clock. He shot in the brass-tipped plugs that called out companies 2 at Washington and Hunter streets and 9 at Central avenue and Glenn street. Company 9 was nearer the fire, and its equipment, a hose wagon, a ladder truck and engine, tufned into East Georgia avenue a block from the station.

The hose wagon clattered ahead of the engine and ladder truck. Georgia avenue, at the point where Central intersects, leads in a slight grade to the corner of Washington, two blocks distant. The heavy truck gained speed as Driver Fluker lashed his two horses into speed along the grade.

Substitute King sat upon the driver's

KAISER AND CZAR WATCHING TROOPS AS THEY STRUGGLE ON WARSAW FRONT

Russians Seem to Have Strengthened Their Positions by the Capture of a Long Line of German Trenches Near Borjimow.

IN THE CARPATHIANS AND IN EAST PRUSSIA BATTLES ARE RAGING

Germans Have Sent Troops From Central Poland to Oppose Russian Advance in East Prussia—Artillery Doing Most of Work on Western Front — Infantry Attacks Are Few.

London, February 7.—With the German and Russian emperors as eye witnesses, the armies of Russia and Germany are still contending for the positions that protect the Polish capital of Warsaw from the invaders. The Russian emperor has been at Russian headquarters for several days and the German report announces that the German emperor has joined his generals and has actually visited troops in the trenches.

Nothing has been disclosed as to the progress of the battle which, when last reports were received, was raging with unabated fury.

The Russians, according to Saturday's official statement, had strengthened their positions on the western bank of the Bzura which they had crossed near its mouth, and captured another German vantage point. They also captured a long line of German trenches near Borjimow which has been the center of most desperate fighting.

In East Prussia another big battle is developing, the Germans having sent reinforcements apparently from their Bzura front to that region. In the Carpathians, while their right is advancing, the Russians are able only to report that their left has checked the Austro-German offensive.

With regard to all this fighting the German official report simply says:

"No essential events have taken place."

ARTILLERY AT WORK ON WESTERN FRONT.

Fighting in the west is a repetition of that of the preceding days. There have been lively artillery duels and a few infantry attacks in which both sides claim to have gained some ground.

No further fighting in Egypt is reported. The Turkish account of that which already has occurred there refers to it as an encounter of vanguards and adds that the battles are still in progress. This probably is a delayed announcement.

The Italian report of the return of Baron Burian, the Austro-Hungarian foreign minister, from his visit to the German emperor says the Austrian cabinet found the results satisfactory, but were not inclined to give Trentino to Italy and part of Transylvania to Rumania as the price of continued neutrality on the part of those countries.

English refugees from Constantinople declare the former German cruiser Goeben, now owned by Turkey, was so damaged by striking a Turkish mine that it will be impossible to repair her at Constantinople. This virtual loss of the Goeben reduces the Turkish fleet to a state of inferiority as compared with the Russian Black sea fleet, which is about to be strengthened by a new dreadnaught constructed at Sebastopol. It is believed that when this ship joins the fleet Russia will attack the Bosphorus and the Black sea while the allied fleets attempt to force the Dardanelles.

STUBBORN BATTLE IN EAST PRUSSIA.

Petrograd, February 7.—(Via London.)—In the stubborn battle developing in the extreme north of East Prussia the Russian general staff sees indications that the Germans have withdrawn troops from the Bzura region and massed them in the vicinity of Insterburg, between Gumbinnen and Tilsit.

Operations here lead to the belief that the fierce attack on Borjimow and Goumine was more of a demonstration than a serious effort to break through toward Warsaw. At Borjimow the Russians appear to be more than holding their own. They have pierced the German second line of trenches.

Military observers declare the situation is satisfactory, although they do not believe the crisis has arrived.

Staff officials still attach the greatest importance to the movement in the Carpathians, where the Russian armies are opposing a tremendous Austro-German force on a line which forms the arc of a circle in the vicinity of Mezo Laborcz, 50 miles southwest of Przemysl. Farther eastward there appears to be a separate Austro-German army 90 miles south of Lemberg, on the Wyszkow-Nadwonna line (Austria-Hungary.) The latter force appears to be trying to pierce the Russian line east of Lemberg and to menace the forces about Warsaw in the rear.

The Russians are awake to this pos-

Atlanta Women to Discuss "Bundle Day" Plans Today

BUNDLE DAY.
Women's Mass Meeting
at Carnegie Library,
Monday Morning at 10 O'Clock.
Laundry Wagons Will Call for
Bundles Next Thursday.
Headquarters Have Been Established
at No. 10 Decatur Street
in the Gould Building.

Get Your Bundles Ready.

A mass meeting of the women of Atlanta will be held this morning at 10 o'clock in the assembly hall of the Carnegie library, to perfect an organization for the handling of the bundles which are to be collected on "Bundle Day."

The meeting has been called by the members of the Needle Work Guild, and every woman who wishes to take part in this great work of charity is cordially and earnestly invited to be present.

An invitation is also extended to the men who wish to help.

"Bundle Day" is next Thursday, that time having been selected by the Associated Charities of Atlanta at its annual meeting last week. The time is therefore short, but with the quick, earnest work that the good women and men of the city are expected to devote to it, a great deal can be accomplished and thousands of bundles of clothing collected for distribution among the poor and needy.

Arrangements will be made for the collection of the bundles by laundry and other vehicles which will be loaned for the purpose, but if a wagon does not call at your home, carry or send the bundle to headquarters. As was the case in New York city, a bundle on "Bundle Day" will be regarded as a badge of honor.

Come out to the meeting Monday morning at 10 o'clock. That is the first thing to do for the cause. The work will not be laborious. Mr. Logan, secretary of the Associated Charities, will arrange for the assortment of the clothing. It will be distributed under the supervision of any charitable organization which wishes to take part. Your presence is wanted at the meeting to help with the formation of committees and to do a few other things to get the work well organized as quickly as possible.

The mayor of Atlanta has called upon the people in a proclamation to help on "Bundle Day."

L. J. Daniel has furnished free of cost a room for the "Bundle Day" headquarters.

A banner has been painted free by the Mack Sign company.

The press of the city is devoting much space to the plan.

The day is going to be a great success. The poor of the city, who need clothing, are going to get it without any cost to anybody.

All you have to do is to gather up the wearing apparel for which you have no need, wrap it in a bundle and see that it gets to "Bundle Day" headquarters.

Remember the date—Thursday, February 11.

The place—First floor of the Gould building.

TROY LAUNDRY GIVES AID.

The Constitution has received the following letter:

Editor Constitution: The plan proposed by the Associated Charities to assist the needy poor through a "Bundle Day," on next Thursday, should have every one's support.

The Troy laundry is ready to offer its entire delivery service for this cause. Our delivery wagons cover the entire city and its suburbs. A bundle for "Bundle Day" may be given to any of our drivers for delivery to the Associated Charities.

A phone call to Ivy 695, or Atlanta 692 will immediately secure a wagon for the purpose.

With the desire of making this worthy undertaking a great success,

Very truly yours,
TROY STEAM LAUNDRY,
Beck Bros., Proprietors.

Atlanta, Ga., February 6, 1915.

Small Hats and Wide Skirts

Already it is apparent that this is to be a season of small hats and wide skirts.

Fashion is writing some notable changes.

Again the waistline shows some startling variations.

With style changes in the air every woman is interested in seeing the new things.

For a directory of the stores and the interesting news of the new fashions we refer you to The Constitution advertising columns.

Just now the advertising is unusually interesting to every woman.

While Home Burns, Members of Family Enjoy Sunday Dinner

Mr. and Mrs. P. L. Bearden and Mr. and Mrs. P. G. Corker, who live in an apartment house at 67 Merritts avenue, were quietly eating their Sunday dinner at 1 o'clock Sunday while the roof of the apartment was burned almost completely off before a passer-by rushed into their home and notified them that their home was on fire.

The fire alarm was quickly turned in and three companies answered the call. The roof of the house and the second story were damaged considerably by flames, and much water damage was done to the furnishings of the first floor and the ceilings. Very little furniture was saved from damage.

The apartments at 67 1-2 and 65 Merritts avenue, a part of the same building, were not damaged, through good work on the part of the firemen.

Fire Chief Cummings stated that he believed the fire began in the roof from a defective flue, or wiring.

SCHOOL BOND ISSUE GETS THE APPROVAL OF ATLANTA PASTOR

"There Is Need of Improvement and Enlargement of System," Dr. White Tells His Congregation.

"MOMENT IS OPPORTUNE TO TAKE SUCH ACTION"

Tabernacle Minister Criticises Moving Pictures on Sunday and Indorses Chapman-Alexander Meetings.

Bonds for school improvements were indorsed yesterday morning by Dr. J. L. White in his sermon at the Tabernacle Baptist church on "Atlanta's Greatest need." The text was Jonah 3:1-2: "And the word of the Lord came unto Jonah the second time, saying: 'Arise, go unto Nineveh, that great city, and preach unto it the preaching that I bid thee.'"

Dr. White said in part:

"There are three great questions before the people of Atlanta at this time, namely: the school bond issue, the Sunday observance, and the Chapman-Alexander meetings; and these three things have in them Atlanta's greatest need. I believe in the Atlanta spirit, which is proverbial, and it never hesitates at a big undertaking and generally does the right thing in the right way. I have already become a full fledged Atlantan, but I hope I am not blind to the faults of the people that I love, and hope I will not be called presumptuous in pointing out faults and recommending remedies.

Calls for Bond Issue.

"I am in full sympathy with the call for the school bond issue. I am not here to criticise our school system, for I am not in possession of any facts that would warrant an unkind word of criticism of it. However, I am sure that there is need of improvement and enlargement. The very fact that the present buildings are inadequate should be sufficient argument to demand immediate provision for every child within our city of school age.

"Moreover, this is the opportune moment for such improvements to be made. At this time of financial stringency, the city has good credit, and all needed improvements possible

Lusitania Flew American Flag While Crossing Danger Zone By Order of British Admiralty

CONNALLY BUILDING CONTRACT AWARDED

Five Stories Will Be Built at Once and the Other Eleven Stories Will Be Added Later.

The contract for the Connally building, which Dr. E. L. Connally has planned for his property at the old Brown & Allen corner, which is the southeast corner of Whitehall and Alabama streets, has been let to the Wells Bros. Co., of Washington, D. C.

W. L. Stoddart, of Atlanta and New York, the architect of the building, telegraphed Sunday that he will be in Atlanta early this week to arrange the final details prior to the work of actual construction, which will begin in the near future.

The plan of Dr. Connally still remains to erect a sixteen-story office building on this corner, but only five stories will be built at once. These stories and their foundation, however, will be constructed to carry up to the originally planned sixteen stories, which will be built at a later date.

Cost Will Be $300,000.

The cost of the part of the building to be erected now will be $300,000. The cost of the entire sixteen stories is estimated at approximately $500,000.

The building will front 84 feet on Whitehall street and 101 feet on Alabama.

The first floor of the building will consist of stores. There will be four stores on Whitehall street and five or six fronting on Alabama street.

There will be an arcade entrance from Whitehall street and another entrance at the northeast corner of the building on Alabama street through the basement story.

The upper stories will be made into offices.

In the rear, or eastern end of the building will be five or six high speed elevators.

Modern Office Building.

The building will be of steel frame construction and absolutely fireproof throughout. The arches and decorations will be of terra cotta.

The Connally building will be one of the prettiest and most modern office buildings in the south. A feature of the building will be a beautiful marquis or canopy covering the sidewalk along the entire Whitehall frontage.

All tenants of the old buildings now occupying the site relinquished their leases the first of last October, and those in it now are only temporary tenants.

The work of Mr. Stoddart, the architect, is well known in the south. In Atlanta his buildings include the Georgian Terrace and the Ponce de Leon apartments. He has also built some of the finest structures in other southern cities.

British Foreign Office Says Use of Neutral Flag Is Well Recognized Ruse of War—No Breach of International Law--Washington Likely to Make Inquiry.

London, February 7.—The use of the American flag by the British steamer Lusitania, of the Cunard line, in its voyage across the Irish sea, has aroused great interest, and, although it did not mention this instance specifically, the British foreign office issued a statement tonight dealing in a general way with such usage. It argues that the only effect in the case of a merchantman flying a neutral flag would be to compel a belligerent ship to investigate the vessel's nationality and the character of her cargo before capturing her.

The statement points out also that by the merchant shipping act of 1894 foreign vessels are permitted to use British colors for the purpose of escaping capture.

From stories told by passengers on the Lusitania it would appear that the captain of the liner received his instructions to hoist the Stars and Stripes from the British admiralty. Already he had been warned of the presence of German submarines.

A Birmingham magistrate, Joseph Sturge, who was returning from a trip to the United States aboard the Lusitania, said that the voyage had been uneventful until the steamer arrived off the Irish coast on Friday morning.

"Then on an intimation from the admiralty," said he, "we hoisted the American flag, which caused some sensation among the passengers. We proceeded under the American colors, but the English flag was rehoisted before we reached the landing stage at Liverpool."

Officials here hold strongly to the view that in the use of a neutral flag British ships, bearing neutral passengers, particularly Americans, are fully justified in taking whatever measures are deemed necessary to save life.

British Foreign Office Statement.

The following statement was issued by the foreign office tonight:

"The use of a neutral flag is, within certain limitations, well established in practice as a ruse de guerre. The only effect in the case of a merchantman of wearing a flag other than her national flag is to compel the enemy to follow the ordinary obligations of naval warfare and satisfy himself as to the nationality of the vessel and the character of her cargo by examination before capturing her and taking her into a prize court for adjudication.

"The British government always has considered the use of the British colors by foreign vessels legitimate for the purpose of escaping capture. Such practice not only involves no breach of international law, but is specifically recognized by the law of this country in the merchant shipping act of 1894.

"In instructions to British consuls in 1914 it is stated: 'A ship is liable to capture if a British character is improperly assumed except for the purpose of escaping capture.'

"As we have in practice not objected to foreign merchant vessels using

Weather Prophecy
FAIR.

Washington, February 7.—Forecast: **Georgia—Fair Monday and Tuesday.** Virginia, North and South Carolina, Louisiana, Florida, Alabama, Mississippi, East Texas, West Texas, New Mexico, Kansas, Arkansas, Tennessee and Kentucky—Fair Monday and Tuesday.

sibility, however, and recently rushed several corps toward this front. On virtually all the Carpathian front the Russians have checked their antagonists, but the Austro-Germans still are undefeated. The Germans, with their usual mobility, suddenly appear at various points and then as suddenly disappear. According to a Russian staff officer, the Germans are used "like cement to hold together detached corps of Austro-Hungarians."

FRENCH REPULSE GERMAN ATACKS.

Paris, February 7.—The following official communication was issued tonight:

"In the night of February 6-7 the enemy delivered in the region of Nieuport several minor attacks, all of which were repulsed.

"There is nothing to report concerning operations of February 7 except the bombardment of the district north of Soissons."

The statement issued in the afternoon follows:

"In Belgium the day of February 6 was quiet. Between the canal and the road from Bethune to La Bassee, a kilometer east of Cuinchy, a brickyard was taken from the enemy.

"In the sector of Arras, north of Ecurie, the German batteries have bombarded the trench we captured February 4, but there has been no infantry attack.

"From Arras to Rheims we have had the advantage in artillery fights.

"In Champagne we have repulsed an attack by half a battalion north of Beausejour.

"From the Argonne to the Vosges artillery combats have been handicapped by a thick fog."

FRENCH TRENCH TAKEN BY GERMANS.

Berlin, February 7.—(By Wireless to London.)—The official statement regarding the progress of the war, issued here today, says:

"Southeast of Ypres we have taken a French trench and two English machine guns.

"South of the canal of La Bassee the enemy penetrated one of our trenches. The battle is still raging there.

"There were no other incidents of importance in either theater except artillery battles."

AUSTRIANS ATTACK MONTENEGRINS.

Paris, February 7.—Resumption of Austrian attacks on all Montenegrin positions along the Drina, in the mountains near Dorado, are reported in a Havas dispatch from Cettinje. It is stated that the Austrian fire was silenced by the Montenegrin artillery.

Three Austrian aeroplanes dropped bombs in Antivari, the dispatch says, doing considerable damage to buildings. No deaths are reported, although one person was wounded. Artillery drove the aircraft off in the direction of Cattaro.

RUSSIANS RETREAT, CLAIM AUSTRIANS.

Vienna, February 7.—(Via London, February 8, 1:22 a. m.)—The following official statement was issued this afternoon:

"The situation in Russian Poland and western Galicia remains unchanged. In the Carpathians heavy battles are proceeding.

"In southern Bukowina our troops are progressing favorably and the Russians are in complete retreat. Twelve hundred prisoners and much war material have been captured. In the afternoon our troops entered Kimpolung and were acclaimed by the population.

"In the southern theater there is no changes. In the Adriatic the attacks of our aviators on French transports met with success; many bombs were dropped.

"The resignation of the finane minister, Von Bilinski, has been accepted. Former Premier von Kober succeeds to that office."

ALL GOING WELL, SAY RUSSIANS.

Petrograd, February 7.—The following announcement of the progress of the campaign was issued tonight:

"Notwithstanding the bending back of our troops in the Carpathians to the south, and in Bukowina, the fighting in which we are engaged is following a course favorable to us. On February 4 we took about 1,000 prisoners. On that front it was revealed that several divisions of Austrians were engaged who up to that time had been fighting against the Serbs.

"One of our army corps which had assumed the offensive in the direction of Mezolaborcz captured between January 26 and February 5 eleven field cannon, two mountain guns, two mortars for torpedoes, twenty-two machine guns, an aeroplane, many army telephones, in addition to taking two commandants of regiments, more than 170 officers and more than 1,000 soldiers, among whom were many Hungarians."

FRANCE'S "75-DAY" BRINGS BIG RECEIPTS

Paris, February 7.—France today celebrated "75-Day," so-called because of the success of the famous French cannon. Money collected from the sale of small flags, medals and other insignia bearing reproductions of a cannon, will go for comforts for the troops.

It is believed receipts will be as large as from a sale of flags for Belgian refugees, when $700,000 was collected.

JAPAN THREATENS TO ATTACK CHINA

Military Action by Island Kingdom to Enforce Demands—Secrecy in Regard to Negotiations.

Pekin, China, February 7.—Japan has threatened military action to force China to meet her recent demands, according to a cabinet message from the Chinese minister at Tokio. Officials say, however, the communication should not be taken too seriously.

Public men and newspapers are urging President Yuan Shi Kai to let Japan seize by force what she wishes, as China would be unable to oppose her, but refuse to grant humiliating concessions. It is reported that President Yuan Shi Kai intends to meet some of the demands, granting Japan such concessions as would be given to any other country, but stubbornly resisting any transgression of China's sovereign rights. The government is observing Japan's requirement that secrecy be maintained in conducting negotiations, as it is desired to give Japan every opportunity of moderating her demands without losing prestige.

Washington in the Dark.

Washington, February 7.—Japan's requirement that China keep secret negotiations the two countries are carrying on to determine their relation to each other, following the capture of Kiao-Chow, prevents the United States government for the present from knowing just what the discussions comprehend.

Virtually no information has been received from Tokio or Pekin giving any definite idea as to what Japan's demands include.

Officials here believe that Japan considers the negotiations for the present as a matter solely between herself and China until an understanding is reached on which the United States and other powers subsequently may be consulted.

The United States, in a note to Japan shortly after the latter issued her ultimatum to Germany, placed itself on record as "expecting to be consulted" in any territorial changes incident to the taking of Kiao-Chow, but assurances have come in London press dispatches that the question of territory is not involved in the present discussions, concessions and commercial advantages alone being under consideration.

MASKED MEN ROB PALM BEACH TRAIN

Male Passengers on Observation Platform Lose Money and Jewelry—Hold-up Near Stuart, Florida.

West Palm Beach, Fla., February 7.—The Palm Beach limited train of the Florida East Coast railroad, Jacksonville to Miami, was boarded by four masked men at Stuart, Fla., early tonight and the male passengers on the observation platform robbed of their money and jewelry. The amount obtained has not been learned, but it is not believed to have been large.

No attempt was made to molest the women. They were forced, however, at the point of revolvers, to enter the car where several of them fainted. After completing their search of the men, the robbers made their way through the observation car, but found that a brakeman, who had caught sight of them, had locked the door.

Revolvers were then leveled at him, and he was ordered to pull the bell rope to stop the train. When it slowed down the four men jumped to the ground and escaped. Posses are now searching for them.

Four men were arrested near Stuart late tonight and are being held pending a further investigation of the hold-up.

OLYMPIA GOES AGROUND BUT FLOATS UNINJURED

Charleston, S. C., February 7.—The United States cruiser Olympia, Admiral Dewey's flagship in the battle of Manila bay, grounded today on Rattle Snakes shoals, near the harbor entrance here, but was floated at high tide with the assistance of the coast guard cutter Yamacraw. No damage was done to the historic ship, and she proceeded on her way to New Orleans. The Olympia recently was put into commission again for the purpose of participating in the formal opening of the Panama canal.

BURIED BY QUAKE HE LIVED 25 DAYS ON DIET OF WATER

Rome, February 8.—(12:30 a. m.)—Red Cross workers at Peterno yesterday excavated a man named Cairolo, who had been imprisoned by the earthquake twenty-five days ago. The man had had nothing but some water during this time. When taken in an automobile to the nearest town he was able to alight from the machine without assistance.

PRO-GERMANS CAPTURE NEUTRALITY MEETING

Laud Kaiser and Germany and Denounce Bryan, United States and Britain.

Chicago, February 7.—J. J. O'Leary, of New York, president of the American Truth society, today denounced England, criticised America and pleaded for Germany at a mass meeting of the American Neutrality league, held for the avowed purpose of promoting peace.

O'Leary's mention of William Jennings Bryan brought forth hisses, and Jenkin Lloyd Jones, pastor of All Souls' church, arose and declared he would leave the platform unless neutrality were preserved. The meeting was one of the largest ever held in the city, a great percentage of the audience being Germans.

"I believe it was right in this hall that William Jennings Bryan proclaimed that the republican party was trying to crucify the people of this country upon a cross of gold," O'Leary said. "He now is trying to crucify the fatherlands of more than 25,000,000 of our people upon a cross of British gold."

Hoots and Cat-Calls.

The Rev. Mr. Jones, as chairman, introduced Frank Buchanan, a labor leader, announced as "a neutral speaker," with the proviso that "he may present himself to you if he chooses to take his life in his hands."

Buchanan was met with hoots and cat-calls when he defended the sincerity of purpose of Mr. Bryan. "While I may not agree with the secretary of state," he said, "I do believe in his sincerity in his work for peace and I believe he will be able to do some work that will be valuable. You are not going to make progress by appealing to prejudice."

Mr. Jones arrived a half hour late. When he reached the coliseum he found the sidewalk lined by men selling banners bearing pictures of the German emperor and the German eagle.

O'Leary was speaking, roundly applauded, when Mr. Jones entered. German banners were hanging from the galleries. American flags were outnumbered.

Pleaded for Flags of Allies.

Jones pleaded for a place for the allies' flags. "Where is the rose of England?" he demanded. "Why is the French flag not there? Where is the Russian flag?"

"Put them all there I say. If this is a pro-German and an anti-British meeting—and mind you, my attitude would be the same if it were pro-British and anti-German—I have no place here and respectfully beg leave to withdraw."

Before Mr. Jones' arrival the meeting adopted the declaration of the principles of the neutrality adopted at Washington at a conference of various organizations as well as a formal resolution advocating prohibition of the export of arms, ammunition and munitions of war, calling for national control of the manufacture of weapons and for peace and harmony in the promotion of neutrality without arousing animosities. The resolutions deprecated the use of airships as a means of dropping bombs or other missiles of destruction on unfortified and non-militant communities.

NEGRO'S HOME BLOWN TO PIECES AT THOMSON

Thomson, Ga., February 7.—(Special.) The second occurrance of the kind within a year was an explosion early last night which demolished a negro house in "Shakerag," Thomson's darktown. It is believed that dynamite was used, being placed under a bed, with a time fuse, which went off too soon. "Trump" Curry, a young negro girl, the occupant, was not at home. All the furniture in one room was broken to pieces, and had anyone been in the room he would probably have been killed. The force of the explosion shook buildings nearby, and many thought it an earthquake.

HAS MAYOR RIGHT TO CALL COUNCIL?

Fight May Come Today When City Fathers Meet to Act on Mayor's Veto of Money Sheet.

Whether Mayor James G. Woodward has the authority or power to call council into an extraordinary session will be the question which mostly concerns Atlanta's general council today.

Late Saturday afternoon Mayor Woodward vetoed the amended finance sheet and immediately called an extra session of the general council to pass on his veto. The call of the mayor was issued after he had conferred with Assistant City Attorney W. D. Ellis and after the assistant city attorney gave an opinion that the mayor had the authority, under section 56 of the city code, which, after setting forth the qualifications of the mayor, recites:

Mayor's Authority.

"He shall have power to convene the general council in extra session, whenever, in his judgment, the exigencies of the case require it."

Members of council say that Mayor Woodward has no right to call a special or extra session of the general council, and they take the position that the finance sheet and the mayor's accompanying veto should be held over to the regular meeting of council next Monday.

Mayor Woodward said Sunday that he regarded action on the finance sheet as imperative and of sufficient importance to the city to issue a call for an extra session of the general council.

Unless the caucus leaders, who have been diligent in the matter of having the amendments tacked on the sheet, succeed in adjourning the session before a vote is taken on the veto, the mayor's action will be sustained.

Only the common council will vote on the veto. There are twenty members of the common council, and Mayor Woodward says that eight are certain to vote to sustain the sheet. It requires a vote of two-thirds of the common council to pass a paper over the veto of the mayor.

Indications Sunday were that there will only be seventeen members of the council in their seats Monday. Councilmen Knight and Alverson are ill and confined to their homes and Councilman Smith is in Florida.

On a motion to adjourn the general council votes. If such a motion is made and carried, the only advantage gained will be to delay action on the veto until next Monday. In the meantime, leaders in the caucus movement will have an opportunity of working on the members who have expressed their determination to stand with the mayor.

Value of Delay.

Even if action is delayed, it is exceedingly doubtful if the necessary two-thirds vote of the common council can be mustered against the mayor's veto. The men who have agreed to sustain the veto have been either hit by the amended sheet or by the recommendations of the conference committee appointed last Monday to confer on the action of the aldermanic board.

Mayor Woodward said Sunday that no action on his part in connection with the finance sheet will admit of criticism.

"The sheet did not remain in my hands one single day," he said. "I vetoed it immediately and called a special session of council for the purpose of getting immediate action.

"Now, we'll see on Monday whether the caucus leaders are really working in the interest of the city or in their own political interests," continued the mayor. "They have a chance to override my veto if they want to, and if they do that will be an end to the matter. If they want to delay the sheet longer and kill some of the projects provided for they can start a movement and have council adjourn before taking action on the veto."

LINER FLEW U. S. FLAG BY ADMIRALTY'S ORDER

Continued From Page One.

the British merchant flag as a ruse for the purpose of evading capture at sea at the hands of a belligerent, so we should maintain that in the converse case a British merchant vessel committed no breach of international law in assuming neutral colors for a similar purpose if she thought fit.

"By the rules of international law the customs of war and the dictates of humanity it is obligatory upon a belligerent to ascertain the character of a merchant vessel and cargo before capture. Germany has no right to disregard this obligation.

"To destroy a ship, non-combatant crew and cargo, as Germany announced her intention of doing, is nothing less than an act of piracy of the high seas."

GERMAN ORDER STIRS WASHINGTON.

Washington, February 7.—Although the text of Germany's official memorandum explaining the admiralty's proclamation of a submarine campaign against enemy merchant ships has been delayed in transmission and did not reach the state department today from Ambassador Gerard, publication in the press of the text of the document produced a profound impression in the national capital.

As the memorandum revealed, that German naval commanders had been ordered, "to avoid violence" to neutral ships, it was regarded as much more reassuring than the brief proclamation, though there was some uneasiness over the suggestion in the memorandum that efforts to torpedo enemy ships might unintentionally strike neutral vessels.

President Wilson and his cabinet have come to no decision as to whether the United States will enter a protest, but it is believed some inquiry may be made as to what steps are planned to take off passengers and crews from enemy merchant ships as well as neutral vessels. The Declaration of London provides that all persons aboard an enemy merchant ship must be saved before the vessel is destroyed.

If assurances are given that merchant ships will not be summarily destroyed without giving an opportunity for persons aboard to be saved, it is regarded as certain that the American government, observing strict neutrality, will not protest against the German proclamation.

Hoisting of U. S. Flag.

It was apparent among high officials that the hoisting of the American flag on the British steamer Lusitania immediately after the charge had been made in the German admiralty's proclamation that neutral flags had been ordered used by Great Britain was more likely to call forth diplomatic discussion than the proclamation itself. This incident may call forth an inquiry tomorrow if Ambassador Page does not report on it by then.

The presence of many close friends and relatives of high officials of the American government on board the Lusitania, and stories that the vessel raised the American flag to protect neutral passengers brought home to officials the question of safety for Americans traveling by sea and the necessity for an early understanding.

While there is no law of the United States penalizing any vessel that enters or leaves American ports for using the American flag without authorization and no explicit rule on the subject ever has been incorporated in international law, the embarrassements which might result from such a practice caused much speculation among diplomats. The German warning that neutrals should not voyage on enemy merchant ships probably will be heeded to some extent, it was thought, but the effect on those Americans who are in Europe now and plan to return home by the big English and French passenger liners was another phase of the situation that was studied.

British Troops Crossing Channel.

In some executive quarters it was believed that the German naval commanders had been given much more strict instructions about caring for the safety of civilians of both enemy and neutral countries on board merchant ships than had been made public. The view suggested was that Germany's action was aimed chiefly against the cargoes of contraband and the troop ships crossing the English channel.

In this connection it was said that official information had been received by the American government that for the last month England had transported an average of 30,000 men each week across the channel. Official estimates which have reached the American government place the number of British troops in the field now as close to 500,000, with the expectation that Kitchener's army of a million was likely to be in France by spring.

Germany's charge that England has not respected neutral property aboard enemy ships and that neutral governments have protested vainly in this respect was not generally known here until the German memorandum was made public.

WILHELMINA'S CARGO NOT FOR SALE.

London, February 7.—The owners of the cargo of the American steamer Wilhelmina, on the way from New York to Hamburg with food for Germany, have intimated to the Commission for the Relief of Belgium that its offer for the purchase of the cargo will not be considered.

The Commission for the Relief of Belgium desired to acquire the cargo of the Wilhelmina for the Belgians. A friend of the commission placed at its disposal a sufficient sum of money to buy the cargo with the object of diverting it to Rotterdam.

Low Price of Cotton Is Cause of the Failure Of Two Big Companies

Macon, Ga., February 7.—A petition in voluntary bankruptcy was filed jointly by the Four Seasons company, a big department store of Dublin, Ga., and the E. Smith company, a farming company operating a chain of farm and supply stores in Laurens county, in the United States court here last night.

Federal Judge Emory Speer has named Judge Augustin Daly, of this city, as receiver.

J. E. Smith, Jr., is president of the Four Seasons company, and also at the head of the E. Smith company.

Joint liabilities are placed at $250,000, and the assets are estimated at $500,000, more than $200,000 of which are bills receivable.

The low price of cotton is given as the cause of the failure.

The petition for the receivership was presented to Judge Speer by Attorney Thomas B. Felder, of Atlanta, representing the two companies and was granted by Judge Speer this afternoon before he left for Savannah to convene a session of the United States district court.

Mr. Felder said that the action was taken in order that the assets might be properly preserved, the stockholders believing that with proper management they will be able to meet all obligations, keep the business going and as soon as the present crisis is passed be able to continue as heretofore. Laurens county is a 56,000-bale cotton county and the two firms had made heavy advances to the farmers with their crops as security, with cotton selling below 8 cents and many of the farmers refusing to part with it at that figure.

ATLANTA WOMAN HELD ON CHARGE OF THEFT

St. Louis, Mo., February 7.—Mrs. Irvin Morgan, 21 years old, of Atlanta, was arrested tonight on a warrant from that city charging her with having stolen a diamond ring valued at $155. Mrs. Morgan said she was employed as a pianist in a department store in Atlanta and had borrowed the ring from Miss Elizabeth Smith, a demonstrator in the same store. Her husband lost his position, and thinking he would be able to find employment here, she pawned the ring February 3 for $25 and spent the money for railroad fare. The couple had lived at 55 East Harris street, Atlanta.

Andrew J. Smith, 81 East Fair street, Atlanta, a brother of Miss Smith, who came to St. Louis to trail Mrs. Morgan, has been authorized by Chief of Police Beavers, of Atlanta, to bring her back, and they will depart tomorrow morning.

SECOND MUNCY TWIN SUMMONED BY DEATH

Babylon, N. Y., February 7.—The second of the Muncy twins died here today. He was William Muncy, aged 96 years. His twin brother, Samuel, died last summer. Both lived all their lives on a farm here, where they were born, following the sea and farming for a living. As they grew old they became widely known as rare examples of longevity among twins. Both were total abstainers and never used tobacco.

BROTHERS KILLED FOR THEIR MONEY

Alonzo and Horace Gardner, of Springfield, Mass., Murdered in Florida--Body of Alonzo Is Found.

Welaka, Fla., February 7.—The body of Alonzo G. Gardner, of Springfield, Mass., was found today in a dense palmetto thicket along the banks of Raft creek near Georgetown, Fla. Death had been caused by a shot in the back of the head. He and his brother, Horace B. Gardner, also of Springfield, have been missing for three weeks. No trace has been found to the latter, but the authorities believe he also is dead.

It is thought that both men were killed for the purpose of robbery. The pockets of the brother found today had been turned wrong side out. Both are known to have worn valuable jewelry and are said to have carried considerable money. A scarf pin was the only jewelry on the body found.

Search for the men was begun immediately after a negro pilot returned here alone on Janary 22 with the yacht which the brothers had engaged for use on a hunting trip up the Ocklawaha river. The negro shortly afterward disappeared and efforts to find him thus far have failed.

Charred camp equipment belonging to the Gardeners was found about a week ago near the place where the body was located. Its finding strengthened a theory held by the authorities that the two men had been murdered. They believed that the guilty person had attempted to burn the camp articles to make it more difficult to trace the movements of the brothers.

The body found was located by Captain Hiscock, of a river mail boat, and Oliver Lind. The dead man's hand gripped a .22-caliber rifle, which he presumably had for the purpose of shooting small game. In addition to the wound on the back of his head, his face was mangled almost beyond recognition.

MORTUARY

(All Funeral Notices Appear on Last Page.)

Edward Agricola.

Edward W. Agricola, age 36, of 14 Boulevard Terrace, died at a private sanitarium, Sunday morning at 9 o'clock. The body was removed to Bloomfield's chapel. The deceased is survived by his mother, Mrs. Lena Agricola; three brothers, Herman A., C. P. and A. A.; and four sisters, Miss Emilie Agricola, Mrs. J. E. Guthrie and Mrs. G. H. Guthrie, and Mrs. L. H. Norris, of Birmingham, Ala.

Mrs. Lillie Belle Reese.

Mrs. Lillie Belle Reese, aged 30 years, died early Sunday morning at her residence, 10 Sycamore street. She is survived by her husband, W. H. Reese; one son, William Reese; her mother, Mrs. J. R. Fortner; three sisters, Mrs. H. U. Myers, Mrs. J. W. Meys and Miss Willie Fortner.

Mrs. Mary E. Miller.

Mrs. Mary E. Miller, aged 64 years, died Sunday afternoon at 4:40 o'clock, at the residence of her son on Church street, East Point. She is survived by her husband and four sons.

Fight Hookworm in Coweta.

LaGrange, Ga., February 7.—(Special.)—Dr. C. C. Buchanan, who has been conducting a campaign against the hookworm disease in Troup county during the past month, leaves Monday for Newnan, where he will continue his work in this line in Coweta county.

More Nourishment— Weight for Weight
—in a package of **Grape-Nuts** than in a roast of beef.
Grape-Nuts is meat—the meat of wheat and barley—a rich, sweet, appetizing food, ready to eat direct from the package with cream or milk.
All the bone-making, blood-making, muscle-making values of choicest wheat combined with malted barley are afforded in this famous pure food.
Grape-Nuts being partially pre-digested by long baking, gives quickly a wonderful power to "do," in return for the small energy required to digest it. Better and more complete nourishment than Grape-Nuts and cream is difficult to find; and with the price of meat way up there's true economy, too.
This sturdy food is sold by Grocers everywhere, in wax-sealed packages. Thousands make it a part of their daily breakfasts.
"There's a Reason" for Grape-Nuts

SOUTH GA. FARMERS PLAN VARIED CROPS

Assured of Market, They Will Make Big Increases in Foodstuff Plantings for This Year.

Waycross, Ga., February 7.—(Special.)—Concrete evidence of the intention of south Georgians to help Georgia check the outflow of money and aid in turning the tide by raising not only enough produce for home consumption, but also for furnishing other markets, has been secured in a two weeks' campaign through some of the counties of south Georgia. In this work W. W. Croxton, general passenger agent for the Atlanta, Birmingham and Atlantic, with Professor J. W. Firror, horticulturist of the state college, have met and addressed hundreds of farmers, and everywhere have received enthusiastic promises of cooperation.

By creating a market bureau, details of which have recently been announced, the Atlanta, Birmingham and Atlantic has furnished farmers along its lines with the means of disposing of surplus produce. The market bureau will keep in touch with the larger centers where there is a demand for produce, and products of the south Georgia farms will be shipped in carload lots to points where the best prices can be obtained. With the selling end of the proposition settled, the problem of getting sufficient acreage planted in produce was tackled.

Making Plans.

Saturday the campaign was carried into Pierce county and Glynn county. At Offerman, in Pierce, a well attended meeting was held, and the farmers intend to plant early sweet potatoes. In Glynn the farmers will plant early Irish potatoes and asparagus. At meetings held in New Lacey and Alma, in the new county of Bacon, farmers agreed to plant sweet potatoes, corn and snap beans. Farmers attending meetings held at Ambrose and Douglas, in Coffee, will plant snap beans, cantaloupes and Irish potatoes. Meetings have also been held at Byromville, Vienna and Lilly, in Dooly county, where farmers will plant some tomatoes, melons and probably early Irish potatoes. In Crisp county, at Cordele and Hatley, it was agreed to plant Irish potatoes and corn.

In Ben Hill county the farmers, at a meeting held at Fitzgerald, agreed on early Irish potatoes. Norman Park, where Colquitt county farmers met, found sentiment favoring tomatoes and early Irish potatoes. In Macon county meetings were held at Ideal and Montezuma, where the farmers agreed to co-operate in the movement. In each county visited a local demonstration agent is employed, and the state horticulturist has arranged to visit each county once a month, so that he can keep in close touch with the farmers and render every assistance possible in their undertakings.

Two significant facts disclosed are those regarding the cantaloupe and tobacco industry. Already 3,000 acres of cantaloupes have been contracted as follows: 1,000 acres around Fitzgerald, 550 in Coffee county, 350 in Bacon county, 600 acres in Thomas county and 500 acres in Dooly county. Cantaloupe producers last season received on an average of $100 per acre.

Tobacco a Success.

Acreage devoted to tobacco has jumped over 2,000 per cent in the section around Nicholls, owing to the success of the experiments of last year. Three hundred and fifty acres have been planted already and with the yield averaging $100 per acre it is easily seen how much the tobacco industry will mean to those engaged in it.

Mr. Croxton was in Waycross last night and expressed himself as highly pleased with prospects. He is a great believer in the agricultural resources of Georgia, particularly of south Georgia, and says there is no reason for south Georgia people not doing whatever they want to do with the soil and climatic conditions they have to back them. All reports reaching Waycross indicate that never before in its history has south Georgia given so much attention to crop diversification and it is being freely predicted that 1915 will be a banner year for this section in every sense of the word.

SCHOOL BOND ISSUE GETS THE APROVAL OF PASTOR

Continued From Page One.

should be undertaken at once in order to give the multitude of unemployed employment. Two ends would be attained by such a step—the child would be cared for, and the men in need of help would receive it in a very practical way. Church houses and school buildings are an index of the character and progress of a community.

"Our school buildings are not equal to our church houses. The little tax that would be added to the people by this bond issue is the very finest investment that all, in proportion to their possessions, could now make. No man will ever be the poorer, and multitudes of children will be enriched.

Plea for Sunday.

"Preservation of the sanctity of the Lord's day is another question that our people must consider and act upon. We must not ignore the fact that the present indications are that there is an attempt to give Atlanta an open Sunday, and I want to record myself here and now as unalterably opposed to letting down the bars in the observance of the Lord's day.

"Let us not be misled. The moving picture shows which are going on in the name of charity and benevolence are being looked upon as a test of public opinion in regard to having permanently such things on the Lord's day. Let no man say that I am opposed to helping the objects for which these moving picture shows have been given on Sunday as a benefit. I am opposed to the subverting of Sunday in the name of charity with the view to having permanently an open Sunday.

"It has been freely stated in some of our papers, on the streets, and in many places of meetings that the large crowds attending these moving picture shows indicate that Atlanta demands such pleasures on Sunday. Following upon these shows is a proposed city ordinance to open fruit stands on the Lord's day, and if that becomes an ordinance, soon still another, and still another will be proposed and enacted, until the result will be an open Sunday, which would be done in defiance of the law of the state and the law of God.

"The open Sunday robs the poor, hard-working people of any day of rest, and they will be made to work, not to meet a necessity of human nature, but the mere whim of a thoughtless crowd bent on pleasure and self-gratification.

Chapman-Alexander Meetings.

"The third thing, and the thing which means most of all to our city, is the Chapman-Alexander meetings. The greatest need of Atlanta is an old-fashioned revival of religion, and turning to God on the part of the vast multitude of church members, and an awakening of the civic conscience, and the salvation of the unsaved.

"There are enough professing Christians in our city today to accomplish anything that ought to be done, if they were united and enlisted. There are 41,750 white Protestant church members of all names, out of a white population of 150,000; there are 25,000 negro Protestant church members, out of a population of 40,000; there are 5,500 Catholics and 12,000 Jews. Or, out of a population of 190,000, there are 66,750 members of Protestant churches, representing, no doubtless, in their connection and influence, 125,000 souls—a vast host under the banner of the Almighty.

"Alas! Alas! The pity of it is that so many of them are valueless in their Christian influence. If this vast host were revived and united, evils which are known to exist, and which exist in hiding, could no longer remain in our midst, covered or uncovered. Therefore, the greatest need of Atlanta is a visitation from the Almighty, a renewal of the power of the day of Pentecost. And we believe we are upon such a day.

SOLD HIM FAKE JOB AS U. S. MARSHAL; IN JAIL

Augusta, Ga., February 7.—(Special.) Henry Taylor, a negro, sold George Parke, of Munnerlyn, Ga., also colored, a job as United States marshal, separating him from $7.60 to pay for badge and pistol. Yesterday Parks appeared at the postoffice and inquired about the paraphernalia of his new office, and the result was that Taylor was found and is now languishing in jail under the charge of unlawfully impersonating a federal officer. He will be given a preliminary trial Wednesday.

WATER SUPPLY SCANTY IN MEXICAN CAPITAL

Zapata's Forces Control Source of Supply—Much Suffering in the City.

Mexico City, February 7.—General Obregon announced today that relief stations would be established throughout the city tomorrow to distribute money and supplies among the poor. Nullification of bills issued by General Villa has caused wide distress.

The water shortage has become so serious General Obregon dispatched artillery today to join his infantry in an effort to drive Zapata's men out of Xochmilico, the source of the water supply.

Carranza's minister of education has announced that 100 teachers will be sent to Boston to study the public school system, and that all schools here will be closed until their return.

Toluca was captured by constitutionalist forces today, according to advices received here.

The Mexican Telephone company, owned by Boston capitalists, has been taken over by the government owing to a dispute between the management and employees.

Villa to Invite Diplomats.

Washington, February 7.—Advices to the Villa agency here tonight said General Villa was at Irapuato, 100 miles north of Mexico City, directing an extensive campaign which has for its object the capture of Tampico and domination of the northern half of Mexico.

That General Villa would invite the diplomatic corps to come into territory he controls as a counter move to the invitation issued by Carranza for the diplomats to go to Vera Cruz was indicated in advices reaching here. At the state department no further news of the differences between Carranza and the diplomatic corps was received.

TWO FIRE FIGHTERS ARE BADLY INJURED

Continued From Page One.

seat with Fluker, donning his helmet and pulling at his rubber boots. Tim Driscoll and Hoseman Lowe were clinging to the back step pulling on their rubber coats. Gillespie was the only man standing upon the side running board. With one hand he was holding to the brass support and with the other he was getting into his coat.

DID NOT HEAR GONG.

The auto was proceeding down Washington street also upon a grade. As the Georgia avenue crossing is a dangerous one and the scene of many previous accidents, Mr. Dittler had been sounding his Klaxon vigorously since he had passed the corner of Glenn street, a block from the fatal crossing. Neither he nor any one of his car's occupants heard the gong and noise of the approaching fire apparatus.

Before he could check speed or swerve in either direction, the big machine was bearing down upon the left horse.

The firefighters were catapulted into the air. They were scattered upon the sidewalk and street like wounded on a battlefield.

The wrecked automobile, its passengers dazed, although unhurt, had been flung against a tree many feet away.

The remaining apparatus of No. 9 company, following but a short distance behind the wrecked truck, stopped as quick as the speeding horses could be checked. Unwilling to leave their injured comrades, a dozen fire-fighters deserted their apparatus and ran to the aid of the wounded men.

The alarm was left to No. 2 company, which proceeded down Washington street, past the scene of the collision, to the source of the alarm, where a small blaze was quickly extinguished.

USE SKIRTS FOR BANDAGES.

Women passersby and girls joined the men in tenderly lifting the wounded men from the street and carrying them upon the porches of nearby homes to await the ambulances. Two women tore strips from the hems of their skirts to staunch the flow of blood from the gashes in the heads of Lieutenant Driscoll, a man of advanced years, and Driver Fluker.

Every ambulance in the city responded to the general call that was sent to Grady hospital. The Grady ambulance, one of the first to arrive, made perhaps the fastest trip of its history to carry Hoseman Lowe to the operating table.

Hoseman Gillespie insisted upon being removed from the hospital to his home at 453 Central avenue, only a few doors from No. 9 station. He wished to be under the care of his wife and mother.

"None of us had time to jump," Gillespie told a reporter for The Constitution. "The noise of the truck and horses prevented us from hearing an automobile horn.

Hoseman King, who had been tossed through the air from the seat beside Driver Fluker, said that he didn't see the touring car until it had plunged into the horse.

"Then I saw a lot of stars," he said. "That's all I remember up until somebody picked me up."

DITTLER TELLS STORY.

Explaining the accident, Mr. Dittler stated to a reporter that his Klaxon had drowned out the sound of the fire apparatus, and that he was unable to prevent the collision before it was too late.

"It was one of those accidents that just couldn't be helped," he said. "I wasn't going more than twelve miles an hour, as every passenger in my car will certify. I knew Georgia avenue and Washington street was a dangerous crossing, so I started blowing my Klaxon by the time I crossed Glenn street.

"It made a lot of noise and kept any of us from hearing the fire trucks. Before I realized, the car had rammed into the horse and I was thrown over the seat into the tonneau."

Residents of the Georgia avenue-Washington street vicinity said Sunday afternoon that they had often sent a demand into police headquarters for the establishment of a traffic policeman at the intersection because of the ever-prevalent danger to vehicles and pedestrians.

Sunday's tragedy is expected to bring about police action to this end, and a traffic policeman will be stationed at the corner.

ATTEMPT ON LIFE OF A. C. L. SPECIAL AGENT

Waycross, Ga., February 7.—(Special.)—Failure to identify either of the negroes caught Saturday at Ruskin after a 7-mile chase following an attempt on the life of C. W. Deen, a special agent employed by the Atlantic Coast Line, caused Sheriff Pittman to release Charles Baker and Joe Manor. The negroes were in a box car when the special agent saw them. He went in to get them, and one fired at him, the pistol being so close to him that his face was burned by powder. Luckily the bullets went wide of their mark.

Rev. Henry E. O'Grady Dead.

Birmingham, Ala., February 7.—The Very Rev. Henry E. O'Grady, dean of the North Alabama district Catholic diocese of Mobile, died here today after a lengthy illness. He was a brother of James M. E. O'Grady, formerly a republican senator in the New York legislature and prominent in New York politics. Funeral services will be conducted in Rochester, N. Y.

Warm vs. cold courtships?

As the comfort of the home *is*, so will the heart respond. No woman can be at her best where the atmosphere is icy. She knows that the human heart is a thermometer and is influenced by cozy surroundings — for warmth induces comfort and comfort is the basis of all human happiness. The *one method* of *unfailingly* producing genial, wholesome warmth that radiates, with gentle glow, through every room alike, is by an outfit of

AMERICAN RADIATORS & IDEAL BOILERS

After the fuel savings have soon repaid the original cost of putting in an IDEAL SMOKELESS Boiler and AMERICAN Radiators, the outfit goes on saving money for you as long as your building lasts. Besides, there are other important advantages: this ideal heating does away with dust and grime, coal gases and soot, stops scuttle lugging, blackening, storing, annual repairs, etc.

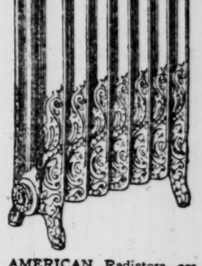

This heating protects the family health by wholesome, purely warmed air—not burned-out air which has been robbed of its oxygen by coming in contact with red hot surfaces of old fashioned heating methods. Then, too, IDEAL SMOKELESS Boilers and AMERICAN Radiators are prime favorites with women because they take cleaning drudgery off her overburdened shoulders, save the furnishings, save time and temper, and do away with the ills and the bills of old fashioned heating devices.

A No. 4-19-W IDEAL Boiler and 300 ft. of 38-in. AMERICAN Radiators, costing the owner $145, were used to heat this cottage. At this price the goods can be bought of any reputable, competent Fitter. This did not include cost of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

Buildings thus outfitted sell quicker and you get full money back for the outfit, or 10% to 15% higher rental, or obtain a larger loan from the banker on property thus modernized. *Can you think of a better investment?*

Whether your house is *old* or new, *farm* or city, let us help you to avoid the cheerless home that is so largely responsible for matrimonial discords. Write us today if you have any heating troubles, or if you are planning a new home or other building; our booklets (mailed free) and special information will be worth your while—put you under no obligation to buy. Act now while iron prices are ruling *the lowest in 10 years* and you can get the services of the most skillful fitters. Call, phone or write *today!*

AMERICAN Radiators are painted to match any color of woodwork, hangings or wall paper. They change a house into a home.

Learn about the cellar-set ARCO WAND Vacuum Cleaner. Price $150

The first reliable improvement of our times for dustless, complete cleaning of rooms, furnishings, etc. Sits in basement or side-room; cleans through simple iron pipe, running to each floor. Easily put in *old* buildings. Proved unfailing after three years test in homes, churches, schools, stores, etc. Ask for catalog (free).

No exclusive agents.
Sold by all dealers.

The Big Window of the Furniture Store Has Been Converted Into a Workshop

And You May See Men Making French Willow Chairs

We have arranged an unusual and certainly interesting exhibition this week in the big window of the Furniture Store.

Men will make these French willow chairs here before your eyes. It is a fascinating and instructive sight to watch their nimble fingers **knit** these pliant French willows into chairs as easily as a woman knits her yarns. What is more—

They Are Specially Priced This Week at $4.60

It is all a part of

The Blue Tag Sale of Dependable Furniture

The center of the first floor is filled with French willow chairs, rockers, settees, tables, tea wagons and the like, all priced below actual worth.

They are shown in their several finishes, to match the furnishings of any room.

Chamberlin-Johnson-DuBose Co.

Constitution Want Ads

SAVE CONSTITUTION READERS

Thousands of Dollars Each Year

CONSTITUTION WANT ADS furnish a myriad of "Short Cuts" between "Wants" of Constitution readers and the satisfaction of those "Wants."

Without this agency for bringing together buyer and seller, Employer and Employee, Landlord and Tenant, etc., both sides to each one of thousands of transactions might spend a great deal of time in futile attempts to locate each other.

Use them often, the more you use the more success you will have in obtaining results.

The address of the Washington Bureau is No. 1727 S Street, N. W., Mr. John Corrigan, Jr., staff correspondent, in charge.

THE CONSTITUTION is on sale in New York city by 2 p. m. the day after issue. It can be had: Hotaling's Newsstands, Broadway and Forty-second street (Times building corner), Thirty-eighth street and Broadway and Twenty-ninth street and Broadway.

The Constitution is not responsible for advance payments to out-of-town local carriers, dealers or agents.

HADEN AND HOLLEMAN.

The Constitution presents today two striking communications from two conspicuously able developers—J. T. Holleman and C. J. Haden—the latter president of the State Chamber of Commerce. Each deals from a different angle with the all-absorbing subject of the so-called cotton crisis and the emergency of reduction and diversification.

Mr. Holleman speaks from an experience of almost a quarter of a century in the farm loan business.

Last fall he contributed to The Constitution an analysis of the farm situation that has become almost a classic. He charged that fundamental conditions had become such that throughout the south there was virtually an agricultural oligarchy dictating the monopolizing of the acres by cotton and discouraged reduction or diversification.

In today's communication Mr. Holleman returns to the same charge, declaring that conditions have improved little, and predicting dire things for this section in the way of a big cotton crop next year.

Undoubtedly, there was a sub-stratum of truth in Mr. Holleman's charges about a cotton oligarchy, voluntary or involuntary.

But the European war and the trend of natural events have broken the backbone of that oligarchy. The Constitution is convinced of that fact, and so is C. J. Haden, who, by strange coincidence, sends us a communication on the same day dealing with precisely the condition Mr. Holleman handles, but from an optimistic angle.

The Constitution submits the two communications to its readers. They are worth reading.

For our side, we incline to Mr. Haden's views, and for very substantial reasons, in addition to the convincing ones he gives why bankers and business men will cooperate in effecting reduction and why diversification is the gospel for 1915 in Georgia. Mr. Haden states that this year we will come mighty near feeding ourselves. And that will solve the problem!

From every part of Georgia comes the report—

(1) That reduction is almost a religion, and diversification the same.

(2) That the development of the cattle industry, on the farm and in packing plants, is assuming unprecedented proportions.

(3) That the whole south, or the cotton belt, is bound to these policies.

(4) That God Almighty Himself is taking a hand in reduction. Last January, the first month of a big crop year, thousands of acres were ready for planting. This year the weather has held that work back nearly two months.

(5) That all the agencies controlling the production of cotton, the fertilizer men, the bankers, the merchants, realizing the situation, are banded together for a reduced cotton crop year, but a big food crop year.

Upon these premises, we base the prediction that the year 1915 will show a greater percentage of reduction over the preceding year than any year as compared with the year before, since the civil war.

The other day one of the commercial agencies said the "south is climbing out of depression." We believe, with Mr. Haden, that it is, and that it is inaugurating a new era which is to bring unprecedented prosperity to the south.

THE NATIONAL GUARD.

Bills for the practical reorganization of the volunteer militia, now pending before the United States senate, represent the consensus of opinion both of military experts and the conservative press. They carry principles which make no bid for wild-eyed militarism; but which aim at substituting for the present disjointed and heterogeneous force, a force capable of being expanded at will, uniform at all times and susceptible either to answer emergency call or of being merged into the regular army without friction or lost motion. General Albert L. Mills, chief of the division of militia affairs, and an expert of marked common sense and conservatism, having made a study of the subject is perhaps the ablest exponent of the principles embodied in these various measures.

It was originally intended that the national guard should be an adjunct to the standing army. Just how vague was the hope in that direction was proved by the Spanish-American war. At that time the laws binding the volunteer troops were of the slackest possible description. Many of the companies lost half their enlistments, for physical disability or other causes. Political appointments of officers marred the effectiveness of the organization. The spectacle was presented often of whole battalions of raw recruits at mobilization points. The job was to train these men all over again. Had we been confronted by a formidable foe the effect might have been disastrous.

Since then the plan of organization has improved, but there is still lack of uniformity, still an indifferent standard, and still men who enlist wholly for frivolous causes. The new plan does not propose taking the men away from their civilian occupation or building up a dangerous military caste. It would, first, insure standardization in every respect; it would weed out the unfit; it would pay officers and men sufficient to induce them to attend drills and maneuvers regularly; it would create a machine capable of indefinite expansion, so that if need arose any reasonable number of trained troops could be thrown into the field, without in the meantime disturbing the regular vocations of the soldiers.

It is universally recognized that some plan of this nature must be adopted if we are to have a national guard capable of reinforcing our standing army, and serving the purpose for which it was created. The sooner congress enacts a bill embodying these principles the better.

ANOTHER JUDGE SPEAKS!

Judge S. P. Gilbert, in his charge to the grand jury of Muscogee superior court, joins hands with Judge Park, of the Ocmulgee circuit, in denouncing mob law.

Georgia cannot be treated to too many of these fearless denunciations of extra-legal justice from the bench, especially from men of the caliber of Judges Park and Gilbert.

No one for an instant imagines that the vast majority of citizens at Monticello condone the outrage at that place.

But it is well for the state to go on record through its judiciary, and it has a salutary effect for judges who enjoy wide respect to set forth plainly to responsible people the evils that rise from mob violence.

Courage in a judge inspires courage in jurors, grand and trial. And given inspiration at these sources, we shall in the future make even more rapid progress in tramping out mob law than in the past.

Billy Sunday has the voice range, and Philadelphia admits that even his printed sermons are best-yellers.

Such delay about that Panama canal opening, it's no wonder Culebra has one of its own every little while.

Villa's life is constantly in danger from envious generals that have missed the movies.

A Georgian has written a poem to the daddy of the white house baby. Tardy recognition, when it seemed that he wasn't going to receive any.

We are inclined to honor the neutral blizzards that remain in the lands where they were born and raised.

The Zeppelins also drop literature on helpless towns, but it is by authors of national reputation.

February, short as usual, may "flag" the Prosperity train for all of us.

No doubt of the prosperity of the optimists who are continually giving the Philippines away.

After six months of war Europe can point to the hospitals she has built.

Just when Mexico is inclined to stop her foolishness somebody stumbles over an old sword and becomes a general.

The Mexican idea is that every little revolution has a right to grow up.

Wonder if it's raining up where wheat is?

Also it's hard when a poor little groundhog doesn't have a shadow of a chance.

"Talking war to beat the band" is easy. There are no war bands now.

JUST from GEORGIA

By FRANK L. STANTON

To See Her Face.

I.
You know Miss Spring is comin'
To fix up all the place,
For a mornin'glory's climbin'
To see Miss Mary's face.

II.
So long they have been waitin',
One little smile to win—
To see her at the window
With the roses lookin' in.

III.
But welcome, Mister Bluebird!
And dress up in your best,
And welcome Brother Robin
In your crimson-colored vest.

IV.
I know how well you love her—
With love so sweet and true,
But there is one comes singing
That loves her more than you!

News From the Settlement.

Nothing much has happened since our last letter—except one or two accidents, but we don't know how serious.

Preaching, as usual, on the first and second Sundays, but folks hereabouts are powerful hard of hearing.

The editor was in our midst two days last week. He reports collections so good he was fair knocked off his feet.

Washington's Birthday is close at hand. He wasn't such a successful Father of His Country as some of our citizens who have fifteen children—and maybe more.

* * * * *

Good Old Times in Lincoln.

The Lincoln Journal has a mighty good county correspondent in "The Wanderer." He drops into poetry, occasionally, and here are two stanzas from his latest:

"Good old times in Lincoln,
You can tell it by the breeze
Bearin' evidence of sausage
After each recurring freeze;
You can tell it by the verdure
Of the fields of growing grain,
You can feel it in the sunshine,
You can hear it in the rain.

"Good old times in Lincoln,
But to better times we'll sing,
With the sun a-winkin', blinkin'
With a message from the Spring;
Soon the peach will be a-bloomin'
When the blue bedecks the sky—
There's a good time now a-boomin',
But a better by and by!"

* * * * *

Words of a Philosopher.

To "hard times" talkers C. R. Vance, the Musket Ridge Philosopher, says, in The Dalton Citizen:

"In the first place, you haven't brains enough to understand matters, and in the second place you have no influence in the matter of remedying things. Get out and go to work, stop bullyragging. In the matter of politics—your little, shallow, wind-jamming arguments will not get any better food or clothing for your family. In the matter of religion, your arguments will not make hell a single degree cooler, or heaven a bit more glorious."

* * * * *

The Bright Welcome.

"Hi! Mister Happy Time,—
Gwine ter shake yo' han',
Gwine ter serenade you
Wid de music of de ban'!
An' what you reckon dat he say?—
"Des sen' dat music-ban' away!
De only thing 'll make me stay
Is hittin' hard licks day by day!"

* * * * *

Delights of "Cracklin' Bread."

The bread situation, as it looks to the "Hit or Miss" Man, of The Chicago News:

"Perhaps the expensiveness of wheat will lead benighted northern folk to discover the delights of 'cracklin' bread.' Cracklin' bread is a corn pone, with cracklin's—the residue of hog fat after lard has been rendered out of it—stirred in liberally. But don't forget to scald the corn meal!"

* * * * *

Draws the Plowline on Them.

Of "the poets in the city" our brother of The Whitsett Courier sings:

"Of the changin' of the season
The city poets sing,
And think they've done a day's work
When their jinglin' belle they ring;
But they jes' won't grab plowhandles
And work their way to spring."

* * * * *

When It Happened.

From George Bailey's "Paragraphorisms," in The Houston Post:

"It required several centuries for man to get a definite idea of hell,' says an Ohio minister. It happened when the first postmaster had to make way for another man."

Trim Your Lamp.

Rise up when the dark falls,
Trim yer wanin' lamp;
All the time a-hollerin'
Of "trouble in the camp,"
Projick round about,
Let yer light shine out,
An' lose the recollection
Of "trouble in the camp."

What the Hereford Has Done for Newton County

Editor Constitution: Your editorials and several letters from different parties, especially Mr. Mebane, should interest all Georgia.

Your interest in this matter is bound to have great weight and good effect on the cattle industry in Georgia.

Georgia has more natural advantages for raising cattle than any state of the union. We feel here that the great white-faced Hereford cattle will put this (Newton) county on the map one of these days. We have breeders of these cattle here who think and talk little else.

Evan Lunsford, of Covington, was one of the first to buy this breed of cattle in Newton county, and several years ago bought and laid the foundation for the large herd that he now owns. It has been my pleasure to see his herd of Herefords at his farm several miles from Covington. It was a great sight to be shown hundreds of acres of bottom land sodded in Bermuda grass, clover and other grasses, and grazing on this fine pasture was one hundred cows and twenty-five or thirty calves, all pure-blooded Hereford cattle, slick and fat. It was a sight to make one's eyes open wide and wonder if this is old Georgia; and I seemed to see farther than this herd of fine cattle, the dawn of a new day, a wonderful panorama passed before my eyes. I seem to see the old red hills, the barren, unproductive spots of Georgia covered with fine cattle. No more shall we worry with the thriftless laborer, no more shall we worry over 8-cent cotton, although we must raise some cotton, but let us turn to beef and dairy cattle raising, also hogs and mules.

Now is the time; by all means let us have the live stock show in Atlanta. It will be an eye-opener to all the south, it will boost the live-stock industry and educate the people to the advantage of thorough-bred beef cattle. Opportunity is knocking at Georgia's door as she has never knocked before; let Georgians be awakened to this opportunity by the press of Georgia, and none are more ready to lend a helping hand than The Constitution.

I hope that the Atlanta Chamber of Commerce will take this matter up with Mr. Mebane, and also invite Mr. Warren T. McRay to bring his Herefords to Atlanta. I may seem partial to the Herefords, but they seem to be the best suited for our climate and as beef cattle they have no superiors. They thrive on our Bermuda and wild clover and are natural hustlers for their living. Vernon T. Davis, of Mississippi, has shown us what the Hereford cattle can do in the south. He entered the great cattle show in Chicago, right in the heart of the cattle country, and among the best breeders in the world, and carried off the grand championship prize with Point Comfort 14th. And what Mississippi has done Georgia can do.

Newton county has several other breeders of Hereford cattle with large herds and they are raising and selling them at good prices. Messrs. Cowan Brothers, M. G. Turner and L. W. Jarman are Hereford enthusiasts, and it is a treat to visit their farms and hear them talk Herefords. Cowan Brothers own the bull "British Oak," half brother to the famous "Britisher Junior," owned by Giltner Brothers, of Kentucky. Mr. Jarman has sold his Devons and is now a Hereford booster. Mr. Lunsford tells me that he sold 65 head of yearling bulls and heifers last spring for something over $8,000. He has converted his cotton fields into pastures, and is now devoting his entire time to raising Hereford cattle.

Thirty years ago, while a boy on a farm in Alabama, I saw my father buy a thoroughbred Durham bull and begin the raising of beef cattle. He was criticised and laughed at by his neighbors, and no one accepted his offer to help improve the beef cattle of his neighborhood. Now a change has come over them, and I had the pleasure last spring of seeing one of my boyhood chums come to this, my adopted home, and buy a Hereford bull and two cows and ship them to Alabama to a farm adjoining my old home.

It is now up to us. Georgia must lay down her burden (all cotton), and take to new industries. We have scratched a poor man's back long enough. Let us be independent of all the world. The opportunity has arrived. Will we reach out and grasp it?

GEO. T. SMITH.

Covington, Ga., February 4, 1915.

American Railways—The Chicago and Northwestern.

By GEORGE FITCH,
Author of "At Good Old Siwash."

The Chicago and Northwestern was formed from the ruins of half a dozen western railroads built in the fifties by enthusiastic men who made the fatal mistake of trying to fill a long-felt want before it existed.

One of these lines ran west from Chicago toward the Mississippi river. Others ran through Wisconsin in an enthusiastic but aimless manner. When the system was finally tied up and buckled together it provided lines from Chicago to Milwaukee, St. Paul, Lake Superior, Omaha, South Dakota and Wyoming, and helped the great middle west to become greater.

The Northwestern system has almost 11,000 miles of road and has paid 8 per cent dividends with a regularity that has entirely overlooked hard times and legislation. It has double-track lines to Omaha, St. Paul and Milwaukee and is about the only railroad in the country which can still afford to run yellow passenger cars. It also runs its trains left-handed on double track, has built a modern, thirty-acre station in Chicago and in other ways has demonstrated its entire indifference to local customs.

The Northwestern has never been monkeyed with by financiers, but has depended upon the support of the plain people at the customary rates. Because of this fact its bonded indebtedness is so low as to cause tears of despair among those eminent captains of transportation whose idea of railroading is to trade gold bonds for steel rails, equal weight. The capital stock of the Northwestern is about $150,000,000 all told, and it owes $185,000,000 in bonds on 9,000 miles of track. When we consider that the New Haven system has managed to balance $350,000,000 in debts on 2,000 miles of system we cannot but feel that the Northwestern has neglected its opportunities.

The Northwestern hauls the millionaires of Chicago to their retreats on the north shore and fights with the other granger lines for the privilege of hauling the crops of the west. It earns about $85,000,000 a year, and its only luxury outside of its Chicago station consists of four Vanderbilts on the board of directors.

The Northwestern is one of the few American roads managed by a president with mutton-chop whiskers. This may be unimportant and then again it may pay the other roads to investigate carefully the effect of mutton-chop whiskers and English superintendents on bonded indebtedness.

Women and Peace.

Editor Constitution: I wish to congratulate you on the article entitled "Universal Peace Possible Only Through Work of Women," which apeared in The Constitution of January 31, and written by Isma Dooly.

I wish every woman of our country could read it. In it are expressed my ideas and more.

I have often said that I thought the women of our land could dictate the policy of our country by the peaceful influence of the mothers of our nation, exercised around the family fireside.

(MRS.) S. W. FOSTER.

Atlanta, February 4.

None Go Begging.

(From The Houston Post.)

We have said all along that the situation would brighten up. Surely those who were fearing not so long ago that our municipal offices might become vacant for lack of men willing to serve may now be reassured when they read the announcements.

HADEN AND HOLLEMAN TAKE ISSUE AS TO 1915 OUTLOOK

Haden Says Cotton Crop Small, Food Crop Large, Anticipates Buoyant Year.

Editor Constitution: Whoever will mingle with the people of Georgia, as I have for the past few months, will be thrilled with admiration at their amazing recuperative power. It may be said, within the bounds of absolute proof, that Georgia has never seen the sun-rise of a brighter day. We have learned a lesson that had to be learned, early or late, and at small cost in comparison with its large benefits.

Surprisingly few failures have occurred: no more than the average, and this in spite of the fact that we had to write off from our crop assets more than $60,000,000 in a single season. When it is considered that the shock came after the entire cost of growing the cotton crop had been spent, too late to economize in its producing, and just as our debts matured, it is a record of endurance that challenges the world, and sends the croaker into hiding.

In reply to inquiry made two years ago, a New England financial concern that had furnished large sums on farm loans in Georgia, wrote me as follows: "We have been doing business since 1883 (in Georgia), and have negotiated over twenty million dollars of mortgages. The loss incurred by the investors has been less than 1-20th of 1 per cent, and since 1897 no loss has occurred."

In 1900 Georgia produced barely more than four million bushels of corn, and in 1913 Georgia produced fifty-eight million bushels of corn. A census was made, at our request, in Newnan, as a typical market point, and it was found that in 1912 the merchants of that place bought from the west twenty-six carloads of corn, and in 1913 only two cars of corn. I am advised by a member of the faculty of the State Agricultural college that they had a similar report from Washintgon, Ga., where, in 1913, over a hundred carloads of corn were brought in, and in 1914 only two carloads. Like reports come to us from all parts of the state.

Hay-Making.

Dealers in mowers and hay presses report remarkable sales the last three years, and for the first time in the history of the state, silos are being built in all parts of Georgia.

Within the census period, ten years, ending 1910, Georgia climbed from the tenth place in the rank of states of the union in the value of its agricultural products, up to the fourth place, with only three states still leading us. It is quite sure that if reasonable allowance be made for the immense area of Texas we will, in a few years, be the first on this roll of honor.

When I make the statement that a reform movement from excessive cotton into a normal poise of diversified crops is now in progress, at a rate unparalleled, I do so, not from hearsay, but from immediate touch with the influences that are bringing about this reform. Our chamber of commerce requested the ordinary of each of fifteen counties accessible to Albany to appoint a delegation from his county, composed of fifteen representative farmers and five business men, to meet in conference at Albany on January 28. The courthouse was well filled; probably there never assembled in Georgia a more representative body of men. It was heart-to-heart work. Ways and means were planned for the growing, financing and marketing of food crops. S. B. Brown, a leading banker of Georgia, stated at this conference for himself and other bankers, for whom he was authorized to speak, that not only would they finance the farmer to grow food crops, but give him the preference over the farmer who grew all cotton. On the following day in Macon, a similar meeting, called in the same way, from seventeen counties, accomplished substantially the same work as was done in Albany.

Enough Corn.

There is little room to doubt that in 1915 Georgia will grow as much corn as we consume; practically all our own oats; nearly half of the wheat, and a very large portion of the meat. With the impetus which has been given the animal industry in the present crisis, it is safe to predict that in three years Georgia will supply all its meat.

There is no reason to lose heart because of temporary depression, or even because of prolonged blundering in the excessive production of one crop. There are many precedents of worse conditions and triumphant revivals.

There is a peach orchard in Houston county the traffic from which is so large that it has seven miles of private spur track connected with the main line, and another orchard near by that has five miles of private spur track. It is authenticated that one of these orchards ships fifteen cars daily during a season, and has earned enormous profits.

Carrying the handicap of too much cotton, Georgia has nevertheless gone forward in a manner that justifies the pride of every citizen. For four years, beginning in 1889, we led all the states of the union in the mileage of railway construction. In the ratio advance of farm values, we led all the states east of the Mississippi river. By reference to the records it will be found that in typical counties, like Terrell, Irwin and Jackson, farm lands have increased in value in twenty years from 300 to 500 per cent. To enumerate tests of the progress of Georgia would extend this article into a volume.

Notwithstanding the rich, black soils of the Mississippi valley and of Texas, the yield of cotton averages more than 10 per cent larger per acre in Georgia than any state west of us, indicating superior farm management. The county of Brooks has placed itself on the national map as a hog-growing section, and made its hams a household standard. More than seventy farm demonstration agents, trained professionals in their line, are giving their entire time in Georgia, going on the farms and teaching the science of agriculture by precept and example. The railroad systems have each an organized corps of farm and market experts dedicating their time to the public service. On one of the smaller railroad lines there were planted last year with successful results 600 acres of Rocky Ford melons, and at this time the soil is being prepared to plant 3,000 acres for 1915.

The progress of good road building in Georgia during the past six years may be truly termed a "conquest of peace." It is confined to no section, but is state-wide. Between 15,000 and 20,000 miles of modern graded highways have been brought into existence since 1908. Twenty years ago this would have been regarded as a pipe dream. The enhancement both in the intrinsic and market value of the farms in the state, caused by these highways, at the lowest rational estimate, is $200,000,000. Georgia is at the forefront of American states in the system of good roads.

The all-cotton system prevails to a hurtful extent mainly in the old plantation counties, where there are too many large land holdings. The owners of these lands, in nearly all instances, realize this blunder. They are quite willing to parcel up their land holdings, and many of these counties are taking active steps to bring in white settlers to buy and operate small farms.

Let us not for one moment underrate cotton. In this wonderful crop is the sign of our future victory. It is our birthright, and a monopoly, when we deal with it prudently and wisely. When the time comes—and that day is near at hand—that we feed ourselves from our own soil, we then will be able to hold cotton at will and sell it at leisure, and have the last word about the price. This plant that, like the actor, plays many parts—wool in the coat, felt in the hat, satin in the ribbon, silk in the gown, rubber in the automobile tire, lard in the can, olive oil in the bottle, and an endless number of other roles—renders mankind a service that will command princely pay, guided by business judgment. At present, more than half of the entire output of cotton seed cake of the south goes to Denmark, to feed cows that produce milk and butter, which is shipped to London and Paris. Not a cannon has been fired, nor will one be fired, in the European war, without the use of cotton. It is the gun cotton, rather than the gun powder, behind the shrapnel.

Sound and Sane.

Cotton brings across the seas more foreign gold each year than wheat, corn, meat and iron combined. Had the crop been as much as a half failure any year for forty years it would have produced an American panic. When southern farming reaches that sound and sane plane which it is now approaching, in which cotton plays a leading part, supported by food crops and a due share of manufacturing, we will take the first place in the world's commerce, to which by nature we are entitled. What we are now passing through is more than a renaissance—it is an industrial revolution.

C. J. HADEN.

Atlanta, Ga., February 1, 1915.

Holleman Reiterates "Oligarchy" Charge and Declares War Has Taught Us Nothing.

Editor Constitution: We are about to fail! Yesterday success seemed certain. Today it hangs in the balance. Tomorrow all hope may have vanished. When the war began and cotton collapsed, there were some among us who believed the south would abandon the all-cotton system of farming and turn to stock raising and diversified agriculture. Who believes it today? No well informed man in New York or Boston or Philadelphia believes it. No newspaper in those cities or in those sections of the country believes it. No newspaper and no man of prominence in the south believes it.

Many pens have been busy and many voices have been raised in the brave effort to bring about this great reform. These appeals have fallen on deaf ears. Men gather around mahogany tables in richly furnished rooms, make speeches and pass resolutions looking to the reduction of cotton acreage and to diversified farming and cattle raising, only to find that all they say and all they do has vanished with the smoke from their fragrant cigars. The men who own the land stand silent, unconvinced, unmoved, unresponsive. If the big land owners in the south intend to reduce cotton agreage and turn to cattle raising and diversified farming, they have given no substantial evidence of it. Little part have they taken in the countless meetings that have been held to consider this great question. Furthermore, unnumbered thousands upon the farms have never read a line from these busy pens, nor heard a word of these earnest appeals. Worse still, unnumbered thousands upon the farms could not understand if they read, or if they heard. What do the poor white tenants, the small white farmers and the ignorant negroes of Georgia and the south know about cattle and grain, about poultry and vegetables and grasses and dairying? Nothing! Who has undertaken to teach them about these things during all the years since the civil war? Nobody. Year in and year out their life and their work has been the same. Under the direction of the land owner they have held strictly to the production of cotton. They know nothing else. Dazed and helpless, they enter the new year without plan or purpose. Dwarfed in mind, without money, without sufficient food and clothing, they wait upon the word of the men in town who have been always supplying them with what they need and always telling them what to do. The influences that have been at work have not reached these people at all. They read nothing. They hear nothing.

"Lo! here are sloughs of ignorance so deep
That sect and rubric seem to fade away.
Souls unaroused as yet from barbarous sleep
That have not glimpsed the prospect of the day."

The Tenants.

An Alabama congressman has risen in the house of representatives and announced that cotton will sell at 20 cents a pound in the fall of the present year. The secretary of the New Orleans cotton exchange has issued a statement which is carried under glaring headlines in the daily papers, to the effect that the south is $120,000,000 richer today than she was a few months ago, because of an increase in the price of cotton. The South Carolina legislature has heard the rumblings of discontent on account of a law passed a short time ago and has repealed the statute reducing cotton acreage in that state. Of course, such a law should never have been passed in the first instance, and I allude to it now to show that all signs point to the re-enthronement of King Cotton. The stage is set and the miserable performance will soon begin. In a little while the small white farmers and the tenant farmers and the negroes will swarm into the cities, towns and villages of the state to make their arrangements for another cotton crop. All the actors in this annual tragedy know their parts perfectly and no rehearsal will be necessary. The bankers upon whom some gentlemen have relied so implicitly to bring about reduction of cotton acreage and to promote cattle raising and diversified agriculture, know their part. Indeed, they quit making loans last fall, as they always do, in order to finance the cotton crop this spring, as they always do. The supply men are ready. They are letter-perfect. The fertilizer men and the mule dealers are also ready. The men who sell the cotton farmers corn and hay and oats and meat and flour and meal and chickens and eggs and milk and butter and canned goods of every description, indeed all the things of this sort which our farmers do not raise because there is no market for them—all these men are ready for business. Before long the footlights will blaze, the curtain will go up and the show will begin. It will be the same old show, as unchanged and unchangeable as a minstrel show or a circus. The same old characters, the same old scenes, the same old stunts. Some of us have longed and labored for a change, but the indications now are that we shall be disappointed. The old program will be carried out; no detail will be omitted. When the spring days are over and the summer time has passed, when the forests glow beneath the autumn sun and the crisp breezes foretell the coming of winter, the fields of Georgia and the south will be white with cotton again. Then, in the twinkling of an eye, as by unseen hands, the great crop will be lifted from the fields and disappear as a cloud vanishes before the wind. What shall we have when it is gone? Money? Oh, no! We shall long before have paid but all the money the cotton was worth for the things we needed in making the crop and we shall still be in debt.

Now, Mr. Editor, do you believe this? Do you believe that it costs us every year more to make a cotton crop than we get out of it? I believe it, and so do many other men. Does the commissioner of agriculture believe it? Does the legislature believe it? Does the governor? If you do and they do, there may still be hope. It may yet be possible to stem the tide. It may yet be possible to so stir the influential men of the state and the south that they will not be carried away by the rising cotton prices, and will not be diverted from reducing cotton acreage and will not abandon plans for planting other crops and raising cattle. Is the proof lacking when the statement is made that all cotton farming does not pay? Beginning with 1909—have we not produced five of the largest and most valuable cotton crops ever grown in the history of the world? Where is the money? It has not found lodgment in our banks. Our savings banks are jokes and our trust companies are pigmies. In New York, Boston, Philadelphia and Chicago there are two or three institutions with more money than all the banks of the southern states combined. What becomes of the money that is paid for these billion dollar cotton crops year after year? If any considerable portion of it remains in the south there is no evidence of it. If we want to build a railroad, a street car line, a system of waterworks, or place an issue of bonds for any purpose whatever, all the money must come from the north, the east or the west. If we borrow money on our homes, or on our farms, it must be from the north, the east or the west. Is not the governor now in New York on his second or third trip for the purpose of finding a purchaser for our state bonds? Think of it! Not money enough in the financial institutions of Georgia to take a paltry three and a half million of the bonds of the Empire State of the South. What is the cause of this never-ending poverty in the south? It has been two hundred years since Oglethorpe settled Savannah. Yet in all this long period Georgia has produced only one man who could and would and did contribute a million dollars to the public good. Why, in the twenty decades that have passed away since that historic time the south ought to have produced a thousand men able and willing to do what Asa G. Candler has done.

A Cotton Country.

But they tell us that the Lord God made this a cotton country. That the world needs cotton. That our negroes and poor white folks are especially fitted for raising cotton and that they are not fitted for anything else. Pressed to its logical conclusion and leaving the negro entirely out of the case, this simply means that in the minds of some people large numbers of our population and their children are doomed to lives of hardship and poverty, and that we have and must always have in the south a class like the peons of Mexico, the fellahs of India, the coolies of China, the serfs of Russia, viz: the crackers of Georgia and Florida, and speaking generally, the "poor white trash" of the southern states. Is that it? Is that the destiny mapped out in the minds of many for a large percentage of our people? And do they go further and say that we must raise cotton in order that these people may have employment of the only kind they are fitted for? That in no other way could these people be cared for? That only under the present system of all-cotton farming is it possible in the south for such people to get food and clothes, that more they can never get and more they can never hope for? I heard a judge of the superior court make exactly this argument in a public speech a few weeks ago, though he applied it solely to the negro. If it fits the case of the ne-

gro, it must fit the case of the penniless white man, whether he would have it so or not. So let the Georgia peons, the Alabama fellahs, the South Carolina coolies, the Mississippi serfs and all the "poor white trash" of the southern states bend their backs to the burden! The world needs cotton! Let them thrust their necks into the yoke and quiver to the stinging lash. The world needs cotton! How can the mill owners in all the great cities continue to clip their coupons if we produce no cotton for them to manufacture? What would become of the mills in New England and old England if we made no cotton? He is a foolish man who suggests that cotton planting ought to be put on a paying basis in the south! The world needs cotton and it is the duty of the south to milk the land of every possible ounce of cotton, whether it pays or not! The world needs cotton! The Lord made this a cotton country! Our poor white folks haven't sense enough to do anything else!

You will begin to see, Mr. Editor, that there are moral and humanitarian questions involved. And these questions will loom larger as landlord absentee farming increases, as tenant farming increases and as poverty in the rural districts becomes the rule. Cattle raising and diversified farming will put an end to this abominable condition. No sensible man advocates the entire abandonment of cotton. The true plan has been stated a thousand times. Cotton should be a surplus crop. As a matter of fact—and this is the hope of men who see the situation clearly—the time will come when cattle raising and diversified farming can be successfully carried on and the south still be able to produce enough cotton to supply the needs of the world. This can be accomplished by the enrichment of the land devoted to cotton and the reduction in the acreage. Indeed, the object to be accomplished in reducing cotton acreage should not be high prices solely, but should be for the purpose of making room on the farm for live stock and the other crops that are now entirely abandoned by southern farmers. I repudiate the idea that poverty is necessary. I do not believe that it is God's will that any man or woman or child shall be sick or poor or ignorant. I agree with Henry Ford, that it is justice and not charity that men need today. There is too much so-called charity. A great many people are so busy with various schemes of charity that they are neglecting their own homes. Charity is becoming standardized and put on a business basis. Sympathy and love are being squeezed out of it. Bishop Candler is uneasy as to the influence of the great foundations upon education, and ultimately upon the character of the whole people. And he is right. The same dangers are threatened in the present trend of the charity work of the country. To be great, a people must be self-supporting, self-reliant, free and independent. We need in this country just laws and good government, not standardized charity and monopolized education. There is no reason why prosperity should not be the rule in Georgia. Properly directed, the people can work themselves out of their present condition. The constituted authorities of the state should take hold of the situation. I do not believe in legislating money into the pockets of the people, but I do believe in legislation that will enable the people to work out their own salvation. I am glad that Governor Slaton resisted the appeals made to him to call the legislature in session last year for direct legislation on these questions, and I told him so. He showed statesmanship of the highest order and rendered a service to the state which should never be forgotten. But there are lines along which the legislature should take action when it meets again. Committees should be appointed to investigate agricultural conditions in the state. It should be ascertained what other states are doing. Georgia should be put in the very forefront of agricultural, industrial and commercial progress.

Get Rich.

Let us proceed to get rich in this country. Let us make money and keep some of it at home. Let us tell the truth about the situation and seek the remedy. Now, all that we eat, all that we wear, all that we have in our homes, all the implements on our farms, comes from the north, the east or the west. We are the foraging ground of the world. If the Mexicans ever quit fighting, I have no doubt we will then go south for whatever things they have to sell. The circle will then be complete. We cannot wean ourselves away from cotton. We continue to produce it, pay out the vast sums of money necessary to do it, then sell it and swap the proceeds for things from the north, the east and the west, and pay boot running into hundreds of thousands. Here is the battle ground. Here is where the fight must be made. If we allow ourselves to lose sight of the main issue the battle is lost. The allied armies of Europe have an easy task compared to this, but it is a work that should enlist the mind and heart of every man who loves his state and country. It is a great fight, but it is worth all the time and money and thought we can put into it. It means, not only the rehabilitation of agriculture and country life, but the rejuvenation of all the cities of the south. Business men in the cities are in very deep waters these days. They are trying to be brave and patient, but they feel the sands slipping under their feet and the breakers beat fierce about their heads. Is there relief in sight? Will it reach them in time? When relief does come, it must be along the lines here indicated and not by glossing over the situation and closing our eyes to the facts.

Let us get rich in Georgia and the south! We can do it, and, when we do, no criticisms will reach our ears from any quarter. Until we do, we may expect to be the football of the rest of the world. Let us get rich! The average area of an Iowa farm is 92 acres, worth $15,000. The average area of a Georgia farm is 96 acres, worth $1,600. Let us change these figures. The total value of Iowa farms is two billion eight hundred millions. The total value of Georgia farms is three hundred and seventy millions. The live stock of Iowa is worth $393,000,000, of Georgia $80,000,000. Georgia is larger than Iowa in area and population. Let us get rich and change all these figures. We can never do it with cotton alone. We have tried it and failed. Hogs and hay, oats and alfalfa, chickens and eggs, milk and butter, fruits and vegetables, spell salvation for us. The per capita wealth of Georgia farmers is $300; of Wisconsin, $1,400; of Illinois, $2,700; while in McLean county, Illinois, a purely agricultural county, the per capita wealth is $3,900. Let us get rich! It is not what we produce, but what we retain that makes us rich. Our problem is to stop the outflow of these millions for things we should produce on our own lands. We can depend upon it that somebody is being enriched by our foolish methods. The balance of trade is against us all the time. No wonder we are poor. This is the truth about the matter, and the sooner we recognize it the better. The truth can do no harm; on the contrary, the only way to solve any problem is to know the truth about it, and the remedy can then be found. In the words of Holy Writ:

"Ye shall know the truth and the truth shall make you free."

But, how the great cotton producers dread the change! They squirm and twist like eels in the hope that some way may be found to avoid the change. They set up the cry that we can sell nothing but cotton, because there are no markets for anything else. These men befog the issue by discussing insignificant details. Certainly we can sell nothing but cotton, when we have nothing but cotton to sell. We can't learn to swim until we go into the water. Can't sell corn and wheat and oats and hay and hogs and cattle and butter and milk and fruits and vegetables! Why the world is hungry for these things! It takes untold quantities of these things to feed our own people. Our farmers need have no uneasiness about markets. They will be found when the crops are raised. We certainly cannot sell what we haven't got. A short time ago The Wall Street Journal published a list of exports for a certain period from this country to Europe, amounting to two hundred million dollars. What was the south's part in this vast sum? Not a penny! We have not one thing in the south that anybody anywhere wants except cotton and a few peaches and vegetables. But we beat the world when it comes to buying things. If anybody anywhere under the sun has anything to sell, he can sell it to us. But we can't sell anything but cotton! We have no markets! We send $10,000,000 out of the state every year for butter, but Georgia farmers will not produce butter for the lack of a market! We pay out $15,000,000 a year for mules, but our farmers will not raise mules, because there is no market! We buy $30,000,000 worth of oats every year, but we raise only a small quantity of oats because there is no market! We pay out every year $60,000,000 for corn, but our farmers are afraid to raise much corn, because there is no market! And so on, down the whole long list of things! Was ever such nonsense preached to an intelligent public!

Mr. Editor, the Good Book says: "The kingdom of heaven is within you;" it is not to be looked for in some far away place. So our prosperity, as individuals and as a people, lies in our own hands. We must depend upon ourselves and not upon others. Are we doing all we can? Do we occupy the high position in the sisterhood of states to which we are entitled? Let us get rich! Let us lift the bent forms of the toilers in the fields and put the stamp of independence on their brows! Let us strike the burdens from the tired shoulders of the women and children on the farms, fill their homes with books and music and song, bring back the roses to their cheeks and the love-light and laughter to their eyes! Forty-eight stars blaze upon the American flag, and one of them is Georgia. Athwart its brilliant folds flash thirteen bars of light, and one of them is Georgia. Is she worthy of that high place? In wealth of climate and soil, in the beauty of her mountains and streams and fields and forests, in patriotism, in the innate virtue of her men and women, she stands side by side with her sister states. But in financial, commercial, industrial and agricultural development she is lagging far behind. Georgians awake!

"Who did hinder you that ye should not obey the truth?"

J. T. HOLLEMAN.

Atlanta, February 1, 1915.

DR. S. B. LEE DIES AT HOME IN RED OAK

Dr. S. B. Lee, prominent physician of Red Oak, Ga., died Sunday afternoon at 3 o'clock. He was one of the best-known physicians in that section of the state, having conducted a sanitarium there for a number of years with much success. He was born and raised in that neighborhood.

Surviving him are his wife and three sons; three brothers, Taylor Lee, of Douglasville, Ga.; Jimmie Lee, of Tifton, Ga., and H. V. Lee, of Red Oak, Ga.; and two sisters, Mrs. J. P. Baker, of Red Oak, and Mrs. J. B. Cleckler, of Palmetto, Ga.

Funeral will be held this afternoon at 2 o'clock at the Red Oak Christian church, with interment in the Red Oak cemetery.

LARGE SUM IS REALIZED AT ARTILLERY BENEFIT

A continuous stream of humanity wended its way from Five Points to the Auditorium-Armory, Sunday afternoon to attend the benefit moving picture shows and organ recital for Battery B, First Battalion, Field Artillery, national guard of Georgia.

It was estimated that over $300 in nickels and dimes had been donated by 6,000 men, women and children, who attended the performances that lasted from 1 o'clock until 10 o'clock last night. The money is to go to a general fund now being raised to send the Atlanta battery of artillery to the San Francisco exposition.

Three national guardsmen, wearing their full-dress uniforms, stood at the entrances to the Auditorium, holding their hats in their hands in which the multitude pitched small coins as it passed into the doors.

FIFTH WARD TO HELP PASS FINANCE SHEET

The school, park and sewer committees of the Fifth Ward Improvement club have been requested by the president of the club to be present at the city hall this afternoon at 3 o'clock and lend their influence toward the passing of the finance sheet. All others interested in the upbuilding of the fifth ward are also urged to be present.

The club will hold a special meeting Thursday night in the auditorium of the English avenue school and ask a report of their councilmen, Messrs Maddox, Johnson and Lee, as to their action toward the sheet.

EYE STRAIN.

Do your eyes tire easily? Do they give out quickly on close work? Do they cause headache? These conditions can be relieved by properly fitted glasses. Come in and talk to us about your eyes today. Our prices are moderate and we guarantee our work. A. K. Hawkes Co., Opticians, 14 Whitehall St.—(adv.)

Grades and Weights of Our Diamonds Are Guaranteed

Every mounted diamond in our stock bears a tag on which is shown in plain English its exact weight, grade and lowest cash price.

A diamond chart of standard grades is always on our diamond jewelry show case.

A novice can select a diamond here just as wisely as an expert.

By buying in large quantities we are able to secure our loose diamonds direct from the cutters. This saves you from 10 to 15%.

We afford you another saving by mounting the loose diamonds in our own shop.

Monthly payments are allowed and selection packages are sent anywhere—all charges borne by us.

Write or call for diamond booklet and catalogue.

JUSTICE AT LAST FOR COL. PERKINS

Georgian to Be Restored to Marine Corps Through Efforts of Congressman Howard—Fight Lasted Years.

By John Corrigan, Jr.

Washington, February 7.—(Special.) Colonel Constantine Marrast Perkins, of Rome, Ga., will be restored to the active list of the United States marine corps as the result of the successful fight made bby Representative William Schley Howard, of Georgia, to amend the naval appropriation bill which passed the house Friday night.

Not only will Colonel Perkins be restored to full rank and seniority, but his victory is even more sweeping. The plucking board system which brought about his retirement is abolished by the bill.

Colonel Perkins and Mr. Howard have had reason to know "It's a long, long way to Tipperary," but the nation-wide congratulations which have poured in upon both of them as the result of their successful fight against all the forces the naval clique could bring to bear upon the secretary of the navy and upon congress have dimmed the memory of the long struggle. Today they have made a "footstool of their enemies".

Fight Lasted Eight Years.

For eight years Colonel Perkins has hoped and worked and prayed for vindication. Next to that result, his consuming desire was to be reinstated in the service he loved and to which he had given all the years of his manhood. Then there was a perfectly human desire to see humbled the system which had sacrificed him to its lust for power and promotion. A soldier's love of victory was also an incentive to spur him on.

Today is his day of triumph, for he has seen his enemies humbled, and practically every man who participated in the wicked cabal that sent him out into the world on a trumped-up charge has been humiliated. It is a proud legacy that he can bequeath to his children.

This item in the naval bill is certain to be retained in the senate, since that body has already passed a separate bill for the reinstatement of Colonel Perkins. Even should the bill fail at this session it will be introduced pro forma at the extra session and passed. So the end of the long road is in sight.

The fact that the naval appropriation bill, as perfected in committee, was literally shot to pieces in the house when it was considered, item by item; that practically every single item of general legislation suggested by the committee and earnestly desired and recommended by the navy department was stricken from the bill and an effort made to eliminate everything but the necessary administration appropriations for operating expenses, while the clause restoring Colonel Perkins in the form of a rider—and the only rider to be agreed to in committee of the whole—was adopted, makes this achievement of Mr. Howard the more signal and noticeable.

The Perkins amendment was the sole addition to the bill to be adopted. Every other amendment accepted was in the nature of slashing and paring. Everything, including the creation of a naval reserve, advocated by the department, the increase in the personnel of the marine corps, the creation of grades of admiral and vice admiral and other special provisions, all went out. The submarines were reduced and a super-marine went in—Colonel Perkins! And one of the chief advantages of the bill going through in this form is this—it cannot be vetoed without vetoing the entire appropriation bill.

Won Over Big Odds.

Each advance in the hard fought struggle which led to this result has been won over big opposing odds. Here are a few of the stages which will be recalled by readers of The Constitution:

A report was secured from two separate judges advocate general of the navy that his elimination was illegal, as there was fraud and duress in securing his so-called voluntary application for a finding which could not be approved.

Proof was secured that the charge of "mental instability," which was upheld by the examining board, was unjust and untrue. An admission of this fact was secured from members who had sat on the board.

Finally the overwhelming inertia of the navy department itself was overcome and a favorable report was secured from Josephus Daniels, secretary of the navy, following two previous unfavorable reports.

The senate months ago passed a bill offered by Senator Hoke Smith for Perkins' restoration, and this measure was also approved by the house naval affairs committee, and a special rule secured from the rules committee to make it in order.

It is only simple justice to Mr. Howard to say that but for his persistent efforts during the time he has been in congress the gratifying result achieved last week could not have been accomplished. He has fought with determination and vigor through all the stages of this bitter campaign, before the navy department, in committee and on the floor of the house.

Every fresh advance that placed Colonel Perkins nearer the coveted goal brought him the kindest messages of congratulation from friends in every walk of life, in the service and in civil life. The campaign has been a long one. There has been the strongest kind of political pressure to overcome from interested members of the house whose kinsmen and relatives profited by his separation from the service. His fight before a republican congress was futile. The first democratic congress held three sessions and adjourned without righting the grievous wrong done him. At the current third session of this democratic congress, both the senate and house have approved his reinstatement.

Howard Carries the House.

An adroit and invulnerable amendment was offered by Mr. Howard to the naval appropriation bill last week. Though general in its character, and thus not subject to a point of order which Representatives James R. Mann, of Illinois, the republican floor leader, was ready to make, the amendment had specific reference to Colonel Perkins' case.

When it was agreed to by a volley of "ayes," Mr. Mann crossed the aisle and with a smile, said:

"Mr. Howard, you are to be congratulated. After hearing your speech on this amendment, I hadn't the heart to carry the fight further."

Champ Clark, speaker of the house, told the Georgia congressman that his brief but impassioned address was a gem.

"It was the best ten-minute speech I have heard in this house."

It was not a speech of pretty phrases, but one of sound sense. It was greeted with loud applause and an overwhelming acquiescence on a viva voce vote. Reviewing briefly the history of the case, he said:

"I do not think I can express myself more forcibly about the case than to say to you at the time of Colonel Perkins' retirement he had thirty-two long years in the service of his country. That service was an honorable service. He never shirked a duty, nor did he have one black mark registered against him within that thirty-two years of service. Ex-Secretary Long, of the navy, devotes nearly one page of his history of the American navy to the work done by that most efficient officer in the suppression of the Samoan rebellion. There he was actually under fire; there he placed his life in jeopardy for his country, as he had been trained to do, and he willingly did it.

"Before he was called before the retiring board in Washington he had not put his foot in Washington in twenty-six years. He had been a real soldier, not a swivel-chair 'warmer' officer or a social 'katydid.'"

Charge of Mental Instability.

Ridiculing the charge of mental instability, Mr. Howard said:

"If people see a policeman walking down the street with a man with handcuffs on him, 70 per cent of the people believe the man is guilty, just because he is arrested. In the like manner I can take my good friend, the gentleman from Kansas (Mr. Murdock), or myself—well, I better leave myself out of the matter for very likely the conclusion would be right there—or I can take my good friend, the gentleman from Mississippi (Mr. Witherspoon), or my good friend, the gentleman from Tennessee (Mr. Padgett), and say that any one of them is crazy, and everyone who would look at them would say, 'Doggone if he doesn't look like it.' (Laughter.) Why? Because someody has been fool enough to say that he is crazy, because someone has him under surveillance. That is the way Perkins was kicked out of the service. Why take this man in the prime of his life when he has rendered honorable service and was ambitious to serve his country further, and put him on the retired list, at the expense of the government, when he is more capable to do service to his country than many of those who are now on the active list? (Applause.)

"I conclude with this terse statement from as just a man as ever presided over the destinies of the American navy—Secretary Daniels. After thoroughly going into every detail of this case he says:

"'When Colonel Perkins requested permission to withdraw his resignation, the judge advocate general reviewed the case and declared that "the finding is not supported by the evidence submitted." In this conclusion reached by the judge advocate general a careful reading of the record forces me to concur. Indeed, I cannot understand how the finding of "mental instability" could have been reached from the evidence at the hearing. The judge advocate general rendered a righteous judgment when he said officially that "the finding is not supported by the evidence submitted to the board." This righteous judgment received the unanimous approval of the house naval affairs committee, after the fullest investigation. I feel that for the navy department to live up to the principle of "for justice, all season's summer, and every place a temple," it is my duty to recommend the passage of a bill to restore Colonel Perkins to the service and thereby right the wrong which was done him.'"

Colonel Perkins Congratulated.

Among the hearty letters of congratulation received by Colonel Perkins last week was one from John F. Stevens, the noted civil engineer and formerly chief engineer of the Panama canal. He wrote:

"I want to congrtulate you on the outcome of your gallant fight. I sincerely trust this will end the long contest in your favor. I shall always remember with pleasure our association on the isthmus."

A former assistant attorney general of the United States wrote:

"Not only have you secured for all time your own vindication and restoration, but in my opinion you have done a great public duty."

Medical Inspector George A. Lung, who is known as the "fighting doctor" of the navy, and who served with Colonel Perkins in the Samoan revolution, sent this message:

"I congratulate you on the great good news of your victory. Do you know that all the obstacles that you met in this contest—each one, though it looked like defeat at the time—actually left you nearer success? Few of us would have had the courage to hold out so long. I rejoice with you and extend my congratulations also to Mr. Howard."

It is probable that the military establishment now will regard Colonel Perkins a skilled lobbyist and call on him to assist in securing the enactment of legislation of interest to the service. One distinguished officer wrote him: "I need your advice."

M. J. Donnelly, a former classmate of Colonel Perkins and a prominent man, now living in St. Paul, Minn., said: "I know you will wear your honors modestly and graciously, and that you will so conduct yourself, both in your private and public life, as to earn the approbation of all. Let us not cherish animosities, but let the dead past bury its dead. Let not your heart be troubled, but turn your face to the rising sun; forget and forgive your enemies and leave the rest to God."

DUBLIN DOCTOR IS BADLY INJURED IN FIRST AUTO LESSON

Dublin, Ga., February 7.—(Special.) Dr. E. L. Black, pharmacist and manager of Black's pharmacy, here, sustained serious internal injuries in an auto accident about noon when the car he was driving struck an electric light pole and threw him with terrific force against the steering wheel. Physicians state the extent of his injuries will not be known until morning. He was taking his first lesson in driving a car, and became confused, running the car into the pole, which was broken in two by the shock. J. H. Proctor, owner of the car, riding with him, and both legs cut by flying glass from the windshield.

Judge Gets Off Bench And Fights Man Who Didn't Like Decision

Augusta, Ga., February 7.—(Special.) Magistrate E. T. Bennett adjourned his court yesterday and immediately assaulted S. M. Davaney, against whom, as judge, he had just rendered a decision. Davaney owed a grocery firm, which is now in bankruptcy. Informed that his account had already been transferred to a third party, he desired the court to say whom he should pay the bill to. The magistrate sought to collect the bill himself, and Davaney objected. Words passed between them, when Bennett suddenly declared his court adjourned and jumped on Davaney. The courts will untangle the trouble.

RICE-CLEANING MILL FOR THOMASVILLE

Thomasville, Ga., February 7.—(Special.)—Arrangements are being made by W. H. Burch & Son, of this city, to put in a rice-cleaning mill in connection with their grist mill here. With the movement to plant more grain crops there will be a larger amount of rice planted in this county this season than ever before.

Rev. Sanders Installed.

Thomasville, Ga., February 7.—(Special.)—An interesting event of Sunday that drew a large congregation to the First Presbyterian church was the public installation of the Rev. Robert Stuart Sanders, as pastor of the church.

Cold Feet!

Your agony and suffering stopped. Warm feet—day and night—if you apply

SLOAN'S LINIMENT

Old and young suffering from cold limbs will find an application of Sloan's Liniment before retiring to give grateful relief. *Buy a bottle to-day.*

Mercer Plays Local Five Next

SPORTS—EDITED BY DICK JEMISON

MERCER QUINTET HERE THURSDAY

Baptists to Play Atlanta Athletic Club on the Local Floor — Locals Rule the Favorites.

With nine games accounted for on the won side of their ledger, and only one defeat for the season, the local Athletic quint will play their eleventh game Thursday night, tackling the Mercer University five on the local court.

The locals played a mighty good game against Birmingham Saturday night, and they appear to be going strong right now.

Mercer is scheduled to give the locals a hard battle, inasmuch as they have a five that battles hard for every game they play, and it is a safe conclusion that Atlanta will have to play good ball to get away with their sixth straight victory.

Mercer and Columbus Meet Saturday Night In Game at Macon

Macon, Ga., February 7.—(Special.)—What will probably be the best basketball game of the season to be played locally will be staged here Saturday night, when the strong Columbus Y. M. C. A. team comes for their annual contest.

Mercer has about the best team they have had in several years, and expect to win the game Saturday.

Columbus has not yet lost a game, while they have defeated some of the best quintets in the south, and expect to keep their record perfect for the season.

The only comparison that can be got on the two teams is the recent showing they made against Georgia. Columbus defeated Georgia in Columbus, while Mercer also defeated the Red and Black in Macon. Columbus won by a larger score than Mercer did.

However, no matter what the final outcome is, there is sure to be some scrap on hand when they meet.

PUSHBALL GAME

Annual Class Game at University February 10.

Athens, Ga., February 6.—(Special.) Wednesday, February 10, has been selected for the annual February game of pushball between the freshmen and sophomores of the university, this contest by agreement of the classes with the faculty three years ago taking the place of the annual class scraps and class rushes over their rival banquets. The old plan resulted in damage to property and injuries to the boys usually. The new plan, while taking something from the class spirit of former times, has been generally gratifying. The losers of the game pay for the banquet for the winning class and are under pledge or honor not to "disturb the meeting."

POOL TOURNAMENT IN FIFTH ROUND

With three of the eight players tied for the lead, the fifth rouhd in the pool tournament being staged at the Montgomery Billiard parlors will be played this week.

The schedule for this week is as follows:

Tuesday—Martin v. Griffin.
Wednesday—Callahan v. Barksdale.
Thursday—Grant v. Evans.
Friday—Marks v. Cox.

B. A. C. AND AUBURN TIE UP SATURDAY NIGHT

Birmingham, Ala., February 7.—(Special.)—The Birmingham Athletic club will play the Auburn Plainsmen here next Saturday night. The team is in good shape after the game with Atlanta Saturday night, and expect to trounce the collegians.

The odds on the contest favor the local crew to capture the contest, but it is expected that the Plainsmen will give them a good battle.

OFFICE WORKERS

Your work is the very kind that wear out eyes. No use suffering with eye strain when properly fitted glasses will make your work easy. We fit glasses that are comfortable and satisfactory and at moderate prices. A. K. Hawkes Co., Opticians, 14 Whitehall St.—(adv.)

Board of Strategy Will Render Boxing Decision; Tickets on Sale Today

Tuesday's Card.

Frank Whitney v. Jack White. Ten rounds.

Battling Budd v. Battling Kelly. Eight rounds.

Kid Underwood v. Kid Dorin. Eight rounds.

A new departure will be tried when the ten-round bout between Frank Whitney and Jack White is pulled off at the Bijou theater Tuesday night, a departure that will insure protection for the boxing fans of the city.

The rendering of the decision will be allotted to a board of strategy, consisting of the sporting editors of The Constitution, Journal and Georgian and Mike Saul, who will be the third man in the ring.

This insures a good decision. One man is likely to make a mistake in rendering a boxing decision, but it is hardly likely that four men will make the same mistake.

At the conclusion of the bout the three sporting editors will confer with Referee Saul, and the result of the conference will be announced as the decision.

Sign Contract Today.

At the office of the sporting editor of The Constitution this morning White and Whitney and the promoters will sign a contract covering all conditions under which the bout will be fought.

This contract will then be recorded with the clerk of the superior court, and being made a matter of record will safeguard local boxing fans against any eleventh-hour quibble over terms, etc.

Attorney Leonard Grossman has been engaged to draw up the contract, which he will make a matter of record, and all details of the bout, weights, time, money, etc., will be included therein.

This contract, coupled with the method by which the decision will be rendered, insures every local fight fan that the bout will be carried through exactly like it is advertised.

Tickets on Sale.

Tickets go on sale at 10 o'clock this morning at the Bijou box office. Admission prices will range from 50 cents to $2. The ringside seats have been elevated, insuring a clear view of the ring from every seat on the stage.

Whitney and White will work out at the Atlanta Athletic club this morning. Battling Budd, who meets Battling Kelly in the semi-windup, and Kid Underwood, who meets Kid Dorin in the preliminary, will work out with White, while the other two preliminary boys will work out with Whitney.

Every indication points to a packed house, with one of the best all-around cards ever staged in this city as the prospect.

A NEW CRACKER

TOM "POMP" GREEN.
The Wilmington, N. C., youngster who will receive a try-out with Bill Smith's pitching staff this spring.

LOOKOUT BATTERY MEN DUE MARCH 7, REGULARS MARCH 14

Chattanooga, Tenn., February 7.—(Special.)—The Lookouts will report a week later than usual this year. The battery men have been ordered to show up March 7. Infielders and outfielders will follow March 14. The exhibition schedule includes twelve games and McCormick believes that the month from March 14 to April 13 will give him sufficient opportunity to select his team. As for that matter, his labors will be largely with the pitching staff. The infield of Harris, Starr, Caveny and Graff is practically decided. Behind the bat, Kitchens is counted a certainty, the other berth resting between Betts and Auer. In the outfield, McCormick and Johnston are in their old positions, with two recruits to try for center field.

TENNIS TOURNAMENT

Indoor Championship Will Start at New York Friday.

New York, February 7.—The first national tennis tournament of 1915 will open in New York city next Friday when the sixteenth annual indoor championship tourney play is inaugurated. Singles and doubles will be contested and the winners will be heralded as the champions for the present year. Entries have been received or promised from the leading players of Boston, Philadelphia, Washington and New York. G. F. Touchard is the present holder of the singles title, and W. C. Grant and G. C. Schafer the doubles champions.

Y. M. C. A. BASKETBALL ENDS NEXT WEDNESDAY

Clubs Will Close Successful Season With Three Games Wednesday Night.

The local Y. M. C. A. basketball which has been running for the last four weeks will come to an end with the three games scheduled to be played Wednesday night.

The games that are to be played are:

Cherokees v. Mohawks.
Ottawas v. Comanches.
Apaches v. Winnebagoes.

The league has experienced a very successful season this year and some hot and enthusiastic games have been played. The Winnebagoes are leading the race with a perfect percentage, having won every game they have played. They should end the season with this record unbroken, inasmuch as Wednesday's game should prove easy for them.

Tentative Dates for Inter-League Games Have Been Announced

New York, February 7.—Tentative dates for a majority of the ante-season interleague games has been selected and within a month the initial contests will be under way in Florida. The schedule, showing some twenty-odd games, is as follows:

March 9, 10, 11—Philadelphia (American) v. Chicago (National), Tampa, Fla.

March 12, 13—Philadelphia (American) v. Philadelphia (National), St. Petersburg, Fla.

March 17, 18, 19—Philadelphia (American) v. Chicago (National), Jacksonville, Fla.

March 27, 28—Philadelphia (American) v. Brooklyn (National), Daytona, Florida.

April 7, 8, 9, 10—Philadelphia (American) v. Philadelphia (National), Philadelphia.

April 12, 13—Philadelphia (American) v. Brooklyn (National), Brooklyn.

April 9, 10—Washington (American) v. Boston (National), Washington, D. C.

April 12—Washington (American) v. New York (National), Washington, D. C.

March 27, 28, April 11—St. Louis (American) v. v. St. Louis (National), St. Louis.

RACING AUTO DRIVER IMPALED ON A BOARD

Los Angeles, Cal., February 7.—Jack Callaghan, automobile race driver, skidded through a fence in a 100-mile automobile race at Ascot park today, impaling himself on a board. A large hole was torn in his chest. He is reported to have an even chance for life.

Callaghan's teammates, Eddie O'Donnell and Tom Alley, finished first and second in the race with times of 1:41.15 2-5 and 1:41.31.

BUFFALO FEDS WILL BE IN ATHENS SOON

Athens, Ga., February 7.—(Special.) A delegation of Buffalo Federal pitchers composed of Krapp, Moore, Shultz, Bedient and Woodman, accompanied by Hal Chase, will arrive in Athens for training March 7. Manager Schadly follows a few days later with the bunch of assorteds. Russell Ford is to be with the bunch. President Robertson, a Buffalo millionaire, and Secretary Kelley will visit the camp in March.

BOARD OF STRATEGY FOR THE LOOKOUTS

Chattanooga, Tenn., February 7.—(Special.)—The Lookouts' official "board of strategy" this spring will consist of Bill Bernhard, Charley Starr and the manager. Bernhard will have charge of the battery candidates and Starr as infield captain will assist McCormick in planning the system of team play. Notwithstanding the new limits as to salary and the number of men to be carried, the Chattanooga club will employ five pitchers, a smaller number than that being considered inadequate for a 154-game schedule.

VANDY WILL PLAY TWO GAMES WITH KY. STATE

Lexington, Ky., February 7.—(Special.)—The strong University of Vanderbilt five from Nashville, Tenn., will play the Kentucky State five two games here, the first to be played Friday night, and the second Saturday.

Both teams are confident of taking the struggles, and some great basketball is expected to be played when they tie up.

Basketball at Athens.

Athens, Ga., February 7.—(Special.) Basketball holds the interest in sports at Athens just at this season. The University of Georgia team returned tonight from a road trip in which series they took two of three games played, losing to Chattanooga and winning from Vandy and from the Nashville Ramblers.

Tuesday night the Y. M. C. A. five will meet Riverside's fast quint on the home court here.

Friday night the tie will be played off between the intensely rival teams of the Y. W. C. A. and Lucy Cobb Institute.

January Milk Report Shows Care of the Dairy Premises

In addition to the butter fats, bacterial count and temperature, the milk report for January of the city bacteriologist shows the score of the dairy where the milk was produced. This score is based on the construction and care of the milk room in which the milk is handled.

Some of the dairymen who have appeared on this list are now buying other milk. These have been transferred to the list of dealers in milk which will be published next month.

Butter Fats—The law requires that the milk contain as much as 3.6 per cent butter fats. Rich, clean milk will contain as high as 5 and 6 per cent.

Bacteria—Fresh, clean milk will contain less than 10,000 bacteria per cubic centimeter. The law allows as many as 100,000 per cubic centimeter. If it contains more than 100,000 there has been some carelessness somewhere in handling the milk.

Temperature—Milk should be kept below a temperature of 50 degrees, or it may become dangerous. The consumer should test his milk with a thermometer. The law requires that all milk be delivered at a temperature below 55 degrees.

The accompanying list gives you the section of the city in which each dairyman delivers, and the consumer can easily tell which man is producing the best milk in their section of the city.

Milk with a high bacterial count should be especially avoided.

The January report in full is as follows:

TUBERCULIN-TESTED DAIRIES RETAILING MILK.
January, 1915.

*Cox & Carroll, Silver Leaf dairy. Ivy 5987.	4.5	2,800,000	45	41½	Ponce de Leon, Peachtree, Ansley Park and North Boulevard.

*The attention of the public is especially called to the dairymen who have a small star opposite the name. These dairymen have provided steam sterilizers for the purpose of sterilizing all bottles and vessels, and where these are properly used it protects the customer from the spread of contagious diseases, and other things being equal these dairymen are to be preferred over others.

NEW YORK OR NEWARK FOR K. C. FEDERALS

Powers Gets the Franchise and Announces He Will Make Transfer.

New York, February 7.—Patrick T. Powers, formerly president of the Eastern league, now the International league, announced tonight that he had acquired the franchise of the Kansas City Federal league club, and would transfer it either to New York, or Newark, N. J.

Powers declared that he and several other men whose names he would not divulge, had purchased the club. He asserted that no decision as to where the club would be shifted would be announced for at least three or four days. Intimations are, however, that Newark has been virtually settled upon.

James Gilmore, president of the Federal league, is on his way here from Chicago, and it is understood he will preside at a conference to be held here tomorrow or Tuesday to decide definitely where the club shall be placed.

In announcing the purchase of the franchise, Powers gave no inkling of the consideration or of circumstances surrounding the transfer. He returned Friday night from Chicago, where he conferred with others interested in the transaction, and said tonight that the final papers were signed here late yesterday.

Augusta's New Pitcher.

Augusta, Ga., February 7.—(Special.) Manager Dudley, of the local baseball club, has annexed another pitcher, Davenport, a six-footer, and well recommended. He is also negotiating with another infielder with an eye to filling the gap left at second base by the going of Danny Clark. An effort is being made to arrange two games with an all-Cuban team for April 6-7.

The Dacia Reaches Norfolk.

Norfolk, Va., February 7.—The American steamer Dacia, recently changed from German to American registry and about which international complications are imminent, arrived here today for coal before proceeding on her voyage to Rotterdam with a cargo of cotton. The Dacia left Galveston last Sunday. Agents of the steamer here say the Dacia will probably sail by noon tomorrow.

THE BUSINESS GIRL needs a fountain pen. One she can carry in her bag. Jno. L. Moore & Sons have the self-filling and non-leaking pen you have been looking for. A point to suit. 42 N. Broad street.—(adv.)

AT THE THEATERS

"The Rosary."

(At the Atlanta.)

This afternoon and tonight the Baldwin-Melville company will present the finest production of Edward E. Rose's beautiful play, "The Rosary," ever seen in Atlanta. Owing to the fact that Margaret Anglin plays Friday and Saturday at the Atlanta the Baldwin-Melville players will be seen only the first four days of the week. Consequently a matinee will be played each afternoon, beginning today. Mr. Baldwin asserts no finer performance of "The Rosary" will ever be made in Atlanta than his company will give this week. The organization has been wonderfully cast and a perfect presentation will be given. "The Rosary" is one of the sweetest of all plays and holds an interest few such ever have. It will be well worth while seeing. The matinees of Monday, Tuesday, Wednesday and Thursday will be at 25 cents.

Margaret Anglin.

(At the Atlanta.)

On Friday and Saturday the Atlanta will offer one of the most famous actresses of America, Miss Margaret Anglin, in Oscar Wilde's greatest play, "Lady Windermere's Fan." It will be shown at three performances, a matinee being scheduled for Saturday afternoon. Miss Anglin is surrounded by a perfect company and gives such a performance of this fashion play as to stir the enthusiasm of all. She stands supreme in her special ability, but in this play she is assisted by a cast of twenty-odd players of ability equal to that of any company in the country. The same cast seen in New York is playing with her, as a matter of fact. Seats for the engagement will go on sale Tuesday morning at 9 o'clock. The demand is sure to be large, for Miss Anglin has a big following here.

Keith Vaudeville.

(At the Forsyth.)

Pretty, dainty, popular Bessie Wynne will be the headliner of an excellent bill which opens this afternoon at the Forsyth. Miss Wynne is one of the best known comediennes on the stage today and has hundreds of friends here. Allan Dinehart and company will present "The Meanest Man in the World." Prince Lai Mon Kim, the Chinese tenor, will sing; comedy will be furnished by Cameron and O'Connor in "Hired and Fired;" Al Herman, the black-face comedian, will offer an act of value; the Agoust family will present pantomime, and Sutton, McIntyre and Sutton will add the comedy fantasy, "The Pumpkin Girl."

JURY DEADLOCKED

In Mercer Case Will Be Dismissed Today.

Macon, Ga., February 7.—(Special.)—A jury in the Bibb superior court has been out for 48 hours in the case of J. F. Mercer, Jr., as administrator, against the Georgia Life Insurance company, of Macon, and tonight it was stated that the jury was hopelessly divided. They will probably be discharged by Judge Mathews tomorrow morning. The suit is brought by Mercer for commissions amounting to $27,000, alleged to be due the estate of his father for the sale of Georgia Life Insurance stock. The company had paid Mercer, Sr., $150,000, and some time before his death claims to have amended the contract so that Mercer was to receive a salary of $300 a month for his work. Five days of the time of the court have been taken up with the case.

TANGO For Corns

Root Out the Core Painlessly With TANGO; End Your Suffering.

TANGO. It is the one safe remedy GUARANTEED to root out the CORE of the corn without pain or toe sore.

Rings and plasters that press on the painful corn, caustic remedies that make the flesh raw and worse than the corn, gouging and cutting—only makeshifts that do not reach the root, the CORE, or kernel of the corn.

THE GOLDEN WEST
AND ITS
World-Wide Interesting Attractions
IS CALLING YOU

The Atlanta Constitution makes it possible for you to visit the two GREAT INTERNATIONAL EXPOSITIONS this year held at San Francisco and San Diego.

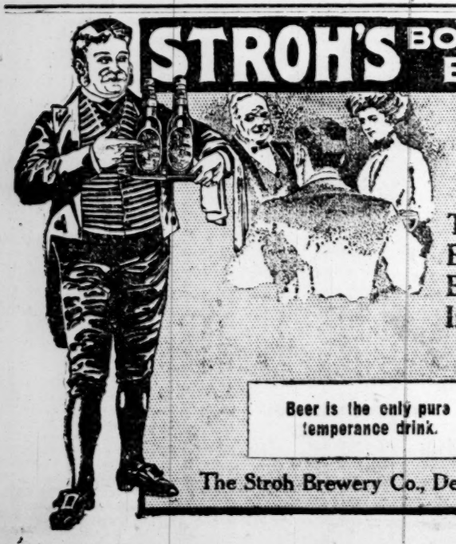

DO YOU WANT TO GO?

Make this opportunity your opportunity to see San Francisco, the two expositions, and the many other points of interest.

Write today for information to

The DAILY CONSTITUTION
Atlanta, Ga.

STROH'S BOHEMIAN BEER

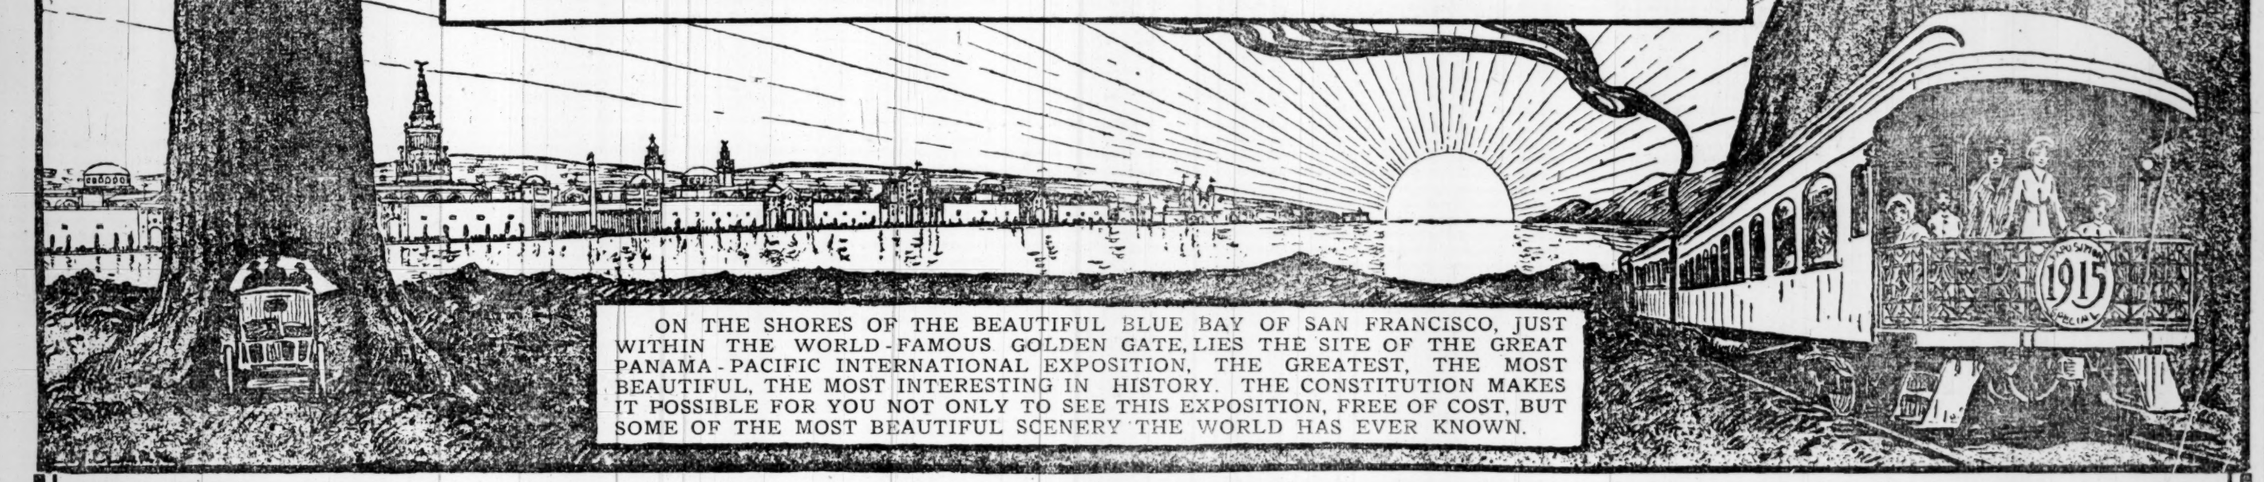

For The Home
The Most Expensively Brewed Beer In America
Beer is the only pure temperance drink.
The Stroh Brewery Co., Detroit, Mich.

To The Golden Gate in 1915

YOU CAN GO AS A GUEST OF
The Atlanta Constitution
And View the Wonders of
THE GREAT PANAMA-PACIFIC INTERNATIONAL EXPOSITION

THE ATLANTA CONSTITUTION takes great pleasure in announcing to the people of Georgia and contiguous territory special arrangements just completed for an unlimited number of trips through America's most beautiful scenery to Sunny California and the Panama-Pacific International Exposition in San Francisco, and also the great Exposition Unique at San Diego.

Every man, woman, boy or girl residing in this territory can receive one of these tours absolutely free. There are enough for all. So, if you desire to take this wonderful educational trip any time you choose during 1915, consider this announcement your invitation to become a member of The Atlanta Constitution party. Read how these wonderful trips are possible.

ON THE SHORES OF THE BEAUTIFUL BLUE BAY OF SAN FRANCISCO, JUST WITHIN THE WORLD-FAMOUS GOLDEN GATE, LIES THE SITE OF THE GREAT PANAMA-PACIFIC INTERNATIONAL EXPOSITION, THE GREATEST, THE MOST BEAUTIFUL, THE MOST INTERESTING IN HISTORY. THE CONSTITUTION MAKES IT POSSIBLE FOR YOU NOT ONLY TO SEE THIS EXPOSITION, FREE OF COST, BUT SOME OF THE MOST BEAUTIFUL SCENERY THE WORLD HAS EVER KNOWN.

ITINERARY OF THESE TRIPS

The trips to San Francisco in 1915 to be given away by The Atlanta Constitution are so routed as to present in diversity what America has to offer to the traveler. A tour entitles the holder to go to San Francisco by one route and return by another. This presents the opportunity of visiting many new and interesting cities en route, and of enjoying ever-changing scenery.

There are five different kinds of tours offered by The Constitution. The complete itinerary of each will be supplied to those who make application for same, either in person or by mail.

NO. 1—CONSTITUTION SPECIAL TOUR, known as "SOUTHWEST CIRCLE," is a special 16-day tour, and will be given for 4,800 points. This will include railroad fare and first-class Pullman from Atlanta to San Francisco and return, and admission to the exposition.

NO. 2—CONSTITUTION STANDARD TOUR, a Southwest Circle of 24 days, covering over 7,000 miles, given for 6,400 points, includes first-class railroad fare, first-class Pullman, meals on trains to and from California, first-class hotel lodging while in California, but no meals; free admission to the exposition grounds, and many side trips on the way to and from San Francisco, as well as a three-days' visit at Los Angeles, two days at San Diego, a trip to Mexico and to Catalina Island.

NO. 3—"CONSTITUTION TOUR DE LUXE," Northwest Circle Tour of 30 days, covering more than 9,000 miles by rail and steamer, given for 7,800 points. This is totally an expense-paid tour, with the exception that meals are not given while in California.

NOS. 4 and 5—"CONSTITUTION PANAMA CANAL TOURS," a 14,000-mile tour of 35 days by steamer and rail, given for 11,800 points and 12,600 points.

All are desirable trips. Any one desiring to visit the exposition or to make a western trip will find it to his or her interest to call on or write to the Circulation Department of The Atlanta Constitution for full itinerary of the five different trips offered.

These trips are given to candidates for securing new subscriptions to The Daily and Sunday Constitution. One new yearly subscription to The Daily and Sunday Constitution at $6.00 gives a candidate over 100 miles of a trip, or a little more than one mile for each point. See schedule of points.

Constitution Exposition Tour Campaign

GOOD FOR 100 POINTS

Toward Securing Points for Free Tour to Panama-Pacific International Exposition, in 1915.

Name . . . . . .

Address . . . . . .

NOTICE—Only one entry blank will be allowed and credited to each candidate.

America's Travel Opportunity

A WONDERFUL EXPOSITION in a wonderful land—The Panama-Pacific International Exposition in California. The imagination thrills and sparkles at such a conjunction of sight-seeing opportunities. A trip to California in itself has proved and always will prove extremely fascinating; the great Exposition in itself will prove a most liberal education, but the opportunity of enjoying both during 1915 has attracted interest and attention of all travelers throughout the world.

Whatever our love for our own State, it may be granted that the most of us wish to see California and test its claims for beauty, diversity, climate, and opportunities. The thousands who have sought California's sunlit valleys, snow-capped mountains, golden beaches, and enjoyed its wonderful climate, have spread the story and now a trip to this Western State is the one desire held in common by every man, woman and child of the North American continent.

How You Can Obtain a Trip

The plan evolved by The Atlanta Constitution whereby you can take one of these wonderful trips as outlined is as simple in understanding as it is easy of execution. Although The Constitution has a large circulation, there are some who at present are not subscribers. They want the Daily and Sunday Constitution, but have put off ordering from day to day. The Constitution desires your assistance in locating and placing these people on its subscription list, and for this favor you are to be liberally rewarded.

Points will be given on each new subscription payment to The Atlanta Constitution according to the schedule given below, and after you have obtained the required number of points a wonderful trip to the greatest of all expositions will be yours.

You may nominate yourself or a friend as a candidate for one of these trips. The names of all candidates nominated will be published in The Daily Constitution from time to time, giving their respective standing.

Each candidate on nomination will be credited with 100 points free, and will be provided with an authorized Constitution receipt book. These receipt books may be had by applying to the Circulation Department of The Constitution. Each candidate obtaining one of these free tours may take the trip to San Francisco any time during 1915 he or she may desire. The exposition opens on February 20, and closes December 4, 1915.

Special arrangements have been made with the McFarland Tourist Agency to furnish the various trips we are offering and the starting point of all of the successful candidates will be Atlanta. If you want to go to the exposition this is your opportunity. Send in your nomination at once and request The Constitution Receipt Book.

Schedule of Points Given on Various Payments:

Money.	Points Allowed.
$6.00	100
5.00	80
4.00	56
3.25	42
3.00	40
2.25	25
2.00	20
1.75	15
1.65	12
1.25	10
1.00	8

Trips and Points Required

Southwest Circle No. 1	4,800 points
Southwest Circle No. 2	6,400 points
Northwest Circle No. 3	7,800 points
Panama Canal Trip No. 4	11,800 points
Panama Canal Trip No. 5	12,600 points

Rates of Subscription by Carrier and by Mail, and Number of Points Given for Each Payment

Subscriptions Delivered by Carrier in Atlanta and Suburbs

Daily and Sunday—Cash in Advance

12 Months	$6.00	100 points
6 Months	3.00	40 points
3 Months	1.65	12 points

Daily Only

12 Months	$5.00	80 points

By Carrier in Country Towns Outside City of Atlanta

Daily and Sunday

12 Months	$6.00	100 points
6 Months	3.25	42 points
3 Months	1.75	15 points

Daily Only

12 Months	$5.00	80 points

BY MAIL—CASH IN ADVANCE

Daily and Sunday

12 Months	$6.00	100 points
6 Months	3.25	42 points
3 Months	1.75	15 points

Daily Only

12 Months	$4.00	56 points
6 Months	2.25	25 points
3 Months	1.25	10 points

Sunday Only

12 Months	$2.00	20 points
6 Months	1.25	10 points

Special R. F. D. Rate for Annual Subscriptions Only

Daily and Sunday, 12 months	$5.00	80 points
Daily only, 12 m'ths	3.00	40 points

Every point in above schedule more than equals one mile. A new yearly subscription to the Daily and Sunday at $6.00 is equal to over 100 miles of one expense-paid tour.

In each one of the trip offers, Numbers 1, 2, 3, 4 and 5, we have tried to state clearly, yet briefly, just exactly what a candidate may depend upon.

Trip No. 3, in our opinion, is the most desirable, and we have put it first. Trips Numbers 1 and 2 are practically the same—No. 2 giving stop-overs and furnishing meals, as stated therein, No. 1, however, being a direct route to San Francisco with six or seven days there and back direct to Atlanta.

Trips Numbers 4 and 5 are really one and the same. No. 4 is for inside rooms, No. 5 being for outside rooms. Outside rooms being most desirable, cost considerably more. We make it in two offers, however, so that a person can decide which he most desires to work for.

In order that the participants may be able to earn extra spending money, the following offer is made:

Anyone who has secured enough points to win any one trip may earn spending money on the following basis:

For an additional 850 points	$25.00 cash
For an additional 1,700 points	50.00 cash
For an additional 2,550 points	75.00 cash
For an additional 3,400 points	100.00 cash

And additional cash payments on the same basis.

We want to have it understood that our guests who take the Northern trip may have an opportunity to visit Yellow Stone Park on their return trip, yet, it is not included in our offer. This side trip will cost $55.00 extra, or 1,800 additional points, as fully explained in the description of trip No. 3.

Pike's Peak will cost $5.00 extra, or 200 extra points, and Crystal Park will cost $3.00 extra or 150 extra points.

Candidates are to understand that this is not a contest and the winning of a trip by one candidate in no way involves the winning of another candidate. There are enough trips for all, and any person who obtains enough points, as outlined above, will receive a trip regardless of the work accomplished by other candidates.

Any candidate who secures one-half of the required number of points to earn one of these trips and who is unable to continue the work, will be given credit pro rata for his or her points registered, and can, by paying the difference in cash, receive the trip offered; or any candidate who fails to win a trip will be paid a cash commission of 10 per cent if the amount of new business is under $100.00, and 20 per cent if the amount of new business exceeds $100.00 of his or her total collections on new subscriptions.

The Constitution does not expect something for nothing, nor does it desire to involve the good people of this vicinity in any plan resulting in remuneration for some and loss for others. By this plan the candidate is at least sure of the commissions, although one of these trips is easily within his or her reach.

This subscription proposition is based purely on new subscriptions. Points will not be given on old subscriptions. Any combination of circumstances by which The Constitution does not gain a new subscription will be classed as old. Any candidate who deliberately tries to have old subscribers discontinue the paper and the paper sent to a different member of the family or a different person entirely, not connected with the family, yet at the same time taking the place of the old subscriber in order that the candidate may be given points, will be cautioned for the first offense and barred from being a participant for the second offense.

The Constitution is making this most liberal offer for new subscriptions, and new subscriptions only. Send in your nomination at once and request a Panama Trip Receipt Book. Make this opportunity your opportunity to see San Francisco, the two expositions and the many other points of interest as outlined above.

ADDRESS ALL COMMUNICATIONS TO THE DAILY CONSTITUTION, ATLANTA, GA.

SHIPS ARE LACKING TO CARRY EXPORTS

Secretary McAdoo Reports Great Freight Congestion at Atlantic Ports—Great Lot of Cotton at Norfolk.

Washington, February 7.—Secretary McAdoo tonight made public telegrams from the New York, Baltimore and Norfolk customs collectors telling of great congestion of freight because of lack of ocean-going transportation.

Dudley Field Malone, the New York collector, told of unusual congestion, particularly with respect to grain. "Explanation of this congestion," he reported, "is that export movement can not be effected because of shortage of tonnage." The congestion applied to warehouse elevators as well as cars and lighters, he added, but no marked congestion of coastwise trade was discernible.

Grain Embargo at Baltimore.

Collector Ryan, at Baltimore, reported that the Pennsylvania railroad had placed an embargo on grain consigned for export there. The elevators, he said, were loaded to capacity and there were 4,260,000 bushels of grain on the railroad tracks awaiting removal. Otherwise, conditions at Baltimore were normal, Mr. Ryan said.

Collector Hamilton, at Norfolk, reported much congestion of merchandise consigned to both coastwise and foreign destinations.

"There are in warehouse and under shed at Norfolk at the present time," he reported, "85,556 bales of cotton, valued in Germany at $5,476,160. There is great congestion in warehouses, under shed and on cars of general export merchandise freight, consisting principally of tobacco, lumber, flour, cotton seed oil, etc.

"The congestion has become so great that in some instances foreign lines, though sending out more general cargo ships within an immediate week for Glasgow, Liverpool and London than for any combined period of three months, have been compelled to refuse offered shipments.

Export Coal Business Blocked.

"There is a great and serious interruption to export coal business by reason of the fact that ships are not available. This being especially true in the case of export coal business to Mediterranean, South American and ports on the west coast of Africa. Freight rates out of Hampton Roads on coal to South American ports have lately been quoted as high as several dollars per ton on coal valued at $2.70 per ton, making shipments absolutely prohibitive and destroying business."

FLEET OF THE KAISER TO TAKE NO CHANCES

It Will Accept Battle Only When It Can Reckon on Victory.

Berlin, February 7.—(Via London.)—Grand Admiral von Koester, president of the German Navy league, in an address at Kiel university today, discussed conditions governing the part to be played by the German navy in the war. He declared the relative strength of the German fleet compared to the Anglo-French-Russian fleet is perhaps one to four. The British, he added, perhaps estimated German lust for battle so highly that they had said to themselves:

"Some day they will come and we shall be able to assume battle in a situation favorable for us."

German Offensive Stronger Than British.

Another possibility, Admiral von Koester declared, was that the British have a higher regard for the German fleet than Nelson had for the French or the Spanish. That the offensive spirit of the Germans is greater than the British, the admiral continued, can justly be assumed when one recalls that the Germans took an offensive against England's east coast, whereas the English have not dared to approach the German coast.

"We are full of the firmest confidence in our fleet," said Admiral von Koester, "but we know that a sea battle means death or victory and that a destroyed fleet cannot be replaced in the course of the war, even if it lasts for years. We, therefore, must be cautious and allow ourselves to be incited to no deed which might eventuate our defeat.

"For what would be the situation if a sea battle took place tomorrow in which each one of our ships took a hostile ship to the bottom with it, and perhaps some others? We would be without a fleet and England could proceed gradually in its attacks against our coasts. And you can be sure after the conduct of England in our colonies that no city would be spared. Our coast from Emden to Memel would be most severely threatened. Landing attempts, if they were sufficiently well prepared, could succeed at places most uncomfortable for us.

"Our fleet must protect us under all conditions and may accept battle only when it can reckon on victory."

Course of Naval War a Surprise.

Admiral von Koester declared the course of the naval war up to the present had caused him great surprise. He added the British secretary of state for the navy seven years ago declared that Germany would wake up some morning and find her fleet gone. He also recalled the utterance of Winston Spencer Churchill, first lord of the British admiralty, in a speech at London last September, in which the German fleet was designated as a "luxury," and in which he said that if the warships did not come out and fight they would be "dug out like rats in a hole."

"After these sayings," Admiral von Koester declared, "one expected other things from the British fleet than it has accomplished. I am almost tempted to believe the spirit of Nelson no longer lives in it."

The admiral said the fact that Admiral Fisher, the British first sea lord, had not changed the plans that were being pursued by Prince Louis of Battenberg, the former first sea lord, "can be taken as showing England's intention to dictate terms of peace eventually with its fleet."

NEW YORK PLANNING TO AID UNEMPLOYED

New York, February 7.—Unemployment conditions in New York city and the progress of plans for remedying them were outlined in a report submitted today by subcommittees of the mayor's committee on unemployment, of which Albert G. Gary is chairman.

There was an increase of about 8 per cent in unemployment in December, 1914, over the same period in 1913, according to the report. Slightly under 200,000 more persons were without work in New York city in December last year than during the same period in 1913, the committee estimates.

Up to February 2 figures compiled from 145,995 families estimated to contain nearly 850,000 individuals, showed unemployment in 34,560 families, among which 42,407 individuals were out of work.

More than $125,000 has been raised as a nucleus to be used in financing emergency workshops in various parts of the city. Money also is being raised to finance a central loan fund for use of the poor.

Dearer Bread for Seattle.

Seattle, Wash., February 7.—The Seattle Master Bakers' association announced today that it had decided, owing to the high cost of flour, to raise the price from 5 to 6 cents a loaf.

EXTRA SESSION SEEMS LOOMING

If Ship Purchase Measure Stays Before Senate, Extra Session Will Be Inevitable to Pass Supply Bills.

Washington, February 7.—With twenty-one working days ahead of the sixty-third congress, the fate of the government ship purchase bill still remains uncertain.

Whether it will be held before the senate to the exclusion of appropriation bills until passed or until the gavel ends the session March 4, must be determined by the president and administration leaders. Some definite understanding on this point probably will be reached within a few days. The president is expected to discuss the situation tomorrow with senators who have stood valiantly for the bill through the last week of party rebellion.

Republicans Won't Yield.

Suggestions that republican senators eventually might yield their opposition in order to take up appropriation bills and let the measure come to a vote are denied by minority leaders. They insist the bill cannot get to a vote.

Democratic senators championing the bill admit the situation is desperate. They realize their insistence on keeping the bill before the senate will mean failure of the great appropriation bills. This would make an extra session inevitable.

If it is determined that an effort should be made to pass the appropriation bills to avoid an extra session, the ship purchase bill, in the opinion of some of its staunchest friends, must be withdrawn. Even then there may not be time to pass all the great supply measures. There are fights ahead on the naval and military bills, and the rivers and harbors bill is certain to provoke attack.

The Immediate Situation.

Whatever is decided as the program for the rest of the session, the immediate situation is the pending motion of Senator Clarke, of Arkansas, to recommit the ship bill without instructions. Democratic leaders probably will let the motion reach a vote tomorrow. A roll call is expected to show forty-eight votes in its favor to forty-seven against it, with Senator Smith, of South Carolina, democrat, absent. In the event of this result, administration leaders plan to adjourn the senate tomorrow night until Tuesday to make a new legislative day, upon which Senator Gore's motion to discharge the commerce committee from consideration of a substitute ship purchase bill, introduced last week, may be called up. This motion will be debatable and will operate to force the republicans to fight it. They may talk on it until March 4 if they choose, or let it come to a vote. With the aid of progressive republicans, administration forces are confident they can carry the Gore motion. This would bring the substitute bill back to the senate and force the opposition to resume its defensive.

The Supply Bills.

Should there be a decision to lay the bill aside the appropriation committees of the senate are ready for action on many of the supply bills, and those still under consideration are to be stripped of general legislative features that might provoke serious attack.

The house met today to eulogize the late Representatives Sereno E. Payne and Edwin A. Merritt, of New York.

TURKS RENDER HONORS TO THE ITALIAN FLAG

Rome, February 7.—It is announced that the Turkish authorities in Yemen have given complete satisfaction to Italy for the invasion of the Italian consulate in Hodeida and the removal of the British consul.

The authorities at Hodeida today saluted the Italian flag on the consulate. The British consul, George Alexander Richardson, was present at the ceremony, but left the city immediately afterwards on a British auxiliary cruiser.

The incident is closed.

On December 11, the Turkish gendarmes attacked the British consulate in Hodeida and Consul Richardson fled to the Italian consulate. A demand was made upon the Italian consul, Signor Cecchi, for his surrender.

When Signor Cecchi refused one hundred Turkish soldiers broke down the consulate doors with axes; soldiers also fired into the building, wounding a servant. Consul Richardson was surrendered. Signor Cecchi was not permitted to leave the consulate for several days, according to one version of the affair. It was stated that he was to be tried on a charge of having housed the British vice consul and also with firing on Turkish soldiers. He was finally rescued by the Italian coast guard ship Giuliana.

Italy demanded that Mr. Richardson be returned to the Italian consulate and that the Italian flag be saluted. The governor of Yemen dismissed the officials connected with the seizure of the consul, returned Mr. Richardson to the consulate and permitted him to leave the country. The paying of honors to the Italian flag signalizes the carrying out of all of Italy's demands.

EASY MONEY AND R. R. BOND ISSUES STIMULATE HOPE

New York, February 7.—Financial opinion found more interest in the commodity and bond markets last week than in stock movement. Towards the end of the week, however, prices of most securities broke sharply, partly because of home and foreign liquidation induced by Germany's proposed extension of the area of naval warfare. Advances in prices of finished products by a steel subsidiary helped steel stock. Ease of money and success of railroad bond issues promised increased demand for steel and stimulated hope for the industry as a whole. A further rise in copper metal contributed to this feeling.

The fivefold subscription to the Pennsylvania railroad bond issue and its rise to a premium over subscription price was considered decisive assurance of investment conditions.

The wild wheat market was the natural consequence of government measures abroad to control food supplies. Sharp responses to peace rumors or of the opening of the Dardanelles proved the paramount influence of the war on the market. Exports continued large and were supplemented by a jump in cotton exports to much above last year. This promised maintenance of the favorable trade balance, which rose in January far over December figures.

In consequence of these conditions, foreign exchange dropped back to near the lowest, with partial recovery.

Conferences of finance ministers of the allies foreshadowed war loans, and latest advices pointed to a second German war loan in the coming month. Heavy business mortalities for January were last year's aftermath.

STOP LOOKING OVER

COTTON MARKET SHOWS STRENGTH

Traders Watching Closely for Effect of Germany's Declaration of War Zone in British Waters.

New Orleans, La., February 7.—Cotton made a moderate advance last week, closing 8 to 12 points up. No great display of bullish sentiment was seen in futures and at no session of the week was trading large in volume, but the market showed strength of its own, derived from the record-breaking export movement, the large mill takings, the better trade accounts from mill centers and the good demand for spot cotton in the interior.

Total shipments for the week were 585,032 bales, the largest on record. Mill takings were 410,000 bales. Manchester cabled that many mills had not been as busy in years, giving orders for war material as the reason. In the belt buyers found it difficult to trade because of the firmness of holders while prices were comparatively higher than at the ports. On several days of the week Dallas quoted middling at 8 cents, while the quotation at New Orleans was 8 1-8. This difference would not pay the cost of transportation between the two markets.

This week the trade will watch very closely the export situation, not so much, perhaps, to see whether the demand continues as to see what effect recent political developments in Europe will have. Most cotton shippers believe that the nations at war will henceforth do their utmost to hamper the shipment of cotton into each other's territory.

The declaration of a naval war zone in British waters on the part of Germany is a new factor in cotton shipping, the real results of which cannot be foretold.

Bullish feeling will be encouraged if cotton continues to go on shipboard at the rate it has during the last week or so.

BANK CLEARINGS IN UNITED STATES DURING LAST WEEK

Bank clearings in the United States for the week ending February 4, as reported to Bradstreet's Journal, New York, aggregate $3,286,157,000, against $2,976,337,000 week before and $3,777,202,000 in this week last year. Canadian clearings aggregate $125,026,000, as against $122,383,000 week before and $159,516,000 in this week last year. Following are the returns for last week, with percentages of change from this week last year:

Dun Says U. S. Becoming World's Greatest Commercial Power

Great Demand for Wheat Enriching West—General Inquiry for Cotton Goods Is Growing Stronger.

Dun says:

The great advance in the price of wheat, due primarily to the urgent world demand, is enriching the agriculture of the west and is contributing to increased commercial prosperity in that section, though the violence of the movement produces some concern as to its other effects. The recent rise in cotton, with expansion of exports, has reduced in considerable degree the sharp depression in the south, caused by the war. The strength of the financial situation increases every day, and this imparts a sense of security and courage to enterprise everywhere.

The conviction is deepening that the events of these notable months are rapidly developing this country into the world's greatest commercial power. Money continues easy; such liquidation as exists has little apparent effect on the securities markets; the new Pennsylvania railroad financing has met with great success, and there is a growing feeling that this year will experience a gradual improvement in business activity, although no extravagant ideas of an immediate great uplift are entertained. Such domestic trade expansion as has taken place is still moderate, and the volume of transactions in every department is below normal producing and distributing capacity. The number of small failures, particularly in the trading class, is large.

Iron and Steel Better.

Grave questions of international rights growing out of the war are watched with more or less anxiety, especially by those engaged in the export trade. On the other hand, the iron and steel trade reflects a gradual betterment, with the outlook for an expanding output in the near future. The January pig iron production was 85,000 tons larger than in December, and showed the first gain since last August. Copper, coal and lumber show a more liberal movement. More activity and firmness characterize the cotton goods trade, and clothing is also in better demand. Outside of war orders, the shoe trade is quiet and there is no special change in leather. Unfavorable weather has served somewhat to check retail distribution. Exports of both grain, cotton and manufactured products continue on a large scale, notwithstanding difficulties of the shipping situation, which this week have been augmented by the hostile attacks on merchant vessels. During January the excess of merchandise exports over imports is computed at about $157,000,000—the high record for the month. Shipments from New York during the latest week were $26,272,091, comparing with $20,521,489 last year.

Cotton Goods Demand.

There is a more general inquiry from retail circles in the primary cotton goods markets, which reflect additional firmness. Further advances in prices are noted, ranging from ¼c on drills and sheetings to 1c a yard on wide sheetings, based on 10-4 goods. Less activity prevails in gray goods for converting, but there is a steadiness to quotations that was lacking in previous quiet periods. Wash fabrics of all kinds are moving more freely, both for spring and summer distribution, while sales of bleached cottons have been large, owing in part to the low prices named. Manufacturing clothiers are beginning to purchase in a more liberal way, and the leading mills report larger orders on staple fall coatings than a year ago. Sharp advances of from 7½c to 10c a yard appear on heavyweight serges. Openings are being made on staples and some fancies in the dress goods division, and the principal manufacturer of broadcloths has done a very large fall business.

Bradstreet's Report Shows Export Trade Is Excellent and Domestic Business Is Making Gradual Progress.

Bradstreet's says:

Though underlying tendencies denote progress, with industrial operations slowly expanding, the situation in purely commercial lines displays some irregularity, amounting, in fact, to reaction at markets heretofore relatively busy. Lest too much importance be attached to this aspect of affairs, it should be stated that the setback noted at some points has been somewhat offset by forward strides at southwestern centers, where spring trade has opened rather auspiciously, and on the whole the evidence seems to indicate creeping progress, with sentiment as to the future more optimistic than actual orders are prominent. In many lines there is considerable room for improvement, and with such conditions existing, modifying terms must frequently be employed in describing affairs in their general aspects and as they apply to the country as a whole.

Many War Orders.

However, idleness, though still bulking large, is decreasing, war orders keep many plants busy to capacity, investment demand for prime bonds is heavy, export trade continues of extraordinary proportions with unprecedented excesses over imports, money is easy, retail trade, helped by clearance sales and favored by snow over a wide area, is more active, farmers are obtaining very high prices for cereals, wheat exports are very large, the southern cotton situation is improving, stocks of goods in country districts are light, road orders exhibit some expansion, lumber continues to reflect slow improvement, farm machinery is in better demand, the winter wheat crop, amply provided with snow, as it is, is in good shape on a record-breaking area, and preparations are being made for a considerable increase in acreages devoted to food crops in general, with soil conditions the country over favorable.

Stock Market Reactionary.

On the other hand, the stock market is reactionary, collections are tardy, which fact makes dealers chary about selling new bills of goods to already delinquent customers, bankers are not disposed to encourage speculations, and bad roads in many country districts hold up purchases.

Northwestern houses, having already booked a good volume of orders for spring shipment, are not so busy as last week, and jobbing trade in the west lacks the snap displayed during the first three weeks of January. The high price of wheat, based largely on actual foreign necessity, is reflected in $8 flour and, in turn, in actual or predicted advances in the price of bread, or what is the same thing, a lessening of the size of the loaf. Reports from the south, though indicating that trade is far below normal, suggest that improvement in cotton, with enormous exports of that staple, and better demand for export lumber and manufactured textiles, makes for a more reassuring future. Southwestern advices are more favorable than those from any other section, markets catering to the wants of cotton growing sections being benefited by the freer movement of the staple, while high prices for cereals, plus a good export demand for horses and mules, have caused spring buying to open auspiciously.

LARGE ORDERS PLACED FOR STEEL LAST WEEK

Export Business Is Active and Steel Corporation Increases Its Output.

New York, February 7.—Railroads placed orders for 81,000 tons of rails last week, including 27,000 tons for the Chicago and Northwestern; 25,000 tons for the Baltimore and Ohio; 14,000 tons additional for the Erie; 8,500 tons for the Maine Central; 3,400 tons miscellaneous, and 3,000 tons light sections. Contracts for 285,000 tons are still pending for domestic shipment, including 40,000 tons for the Illinois Central. That road placed an order for 900 refrigerator cars. Railroad bridge work was light.

Marine work continued encouraging, with another order placed for two boats by the Texas company, while six other steamships are under negotiations with eastern yards, including one additional steamship for the Standard Oil company. The prospect for future structural work is improving. Orders were placed this week for 11,000 tons of shapes for buildings and bridges and bids were taken on 20,000 tons additional.

Export business was more active. Great Britain bought 30,000 tons of shrapnel; English pipe mills took 10,000 tons of skelp; more sales of billets and sheets were made to Europe and the Orient, and 20,000 tons of tin plate were taken for South American shipment. Bars, plates and shapes were advanced $1 per ton for shipment after February. Wire was active. The steel corporation increased the steel ingot output to 53 per cent of total capacity.

Condition U. S. Treasury.

Washington, February 7.—The condition of the United States treasury at the close of business yesterday was: Net balance in general fund $50,975,772.

Total receipts $1,605,474.

Total payments $3,150,857.

The deficit this fiscal year is $76,898,987, against a deficit of $20,040,133 last year, exclusive of Panama canal and public debt transactions.

TURMAN & CALHOUN
203 EMPIRE BUILDING.

7-ROOM HOME, LOT 100x200 IN SPOTLESS COLLEGE PARK

A LEVEL, smooth, pretty corner lot, covered with oak trees. Block from car line. In the midst of pretty bungalow homes. And the house is one the owner built for a home. Well built. Substantial and very attractive. You can buy it for $500 less than cost value NOW, $4,000, if you can pay $1,000 cash, or close up between $600 and a thousand cash, and you'll get a real suburban HOME, where you can garden, eat fruit, keep chickens; hammock in the shade; have a grass lawn, swings and enjoy the real neighborly kind of life.

EDWARD H. WALKER
35 NORTH FORSYTH STREET.

IN ALL OUR NEIGHBORHOOD

There Is Hardly A Woman Who Does Not Rely Upon Lydia E. Pinkham's Vegetable Compound.

Princeton, Ill.—"I had inflammation, hard headaches in the back of my neck and a weakness all caused by female trouble, and I took Lydia E. Pinkham's Vegetable Compound with such excellent results that I am now feeling fine. I recommend the Compound and praise it to all. I shall be glad to have you publish my letter. There is scarcely a neighbor around me who does not use your medicine."—Mrs. J. F. JOHNSON, R. No. 4, Box 30, Princeton, Illinois.

Experience of a Nurse.

Poland, N.Y.—"In my experience as a nurse I certainly think Lydia E. Pinkham's Vegetable Compound is a great medicine. I wish all women with female troubles would take it. I took it when passing through the Change of Life with great results and I always recommend the Compound to all my patients if I know of their condition in time. I will gladly do all I can to help others to know of this great medicine."—Mrs. HORACE NEWMAN, Poland, Herkimer Co., N. Y.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you want special advice write Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

DONLON DEFENDS CATHOLIC CHURCH

President of Georgetown Answers the Charges That Church Is Narrow, Medieval and Behind Times.

Charges that the Roman Catholic church is narrow, medieval and behind the times, were answered yesterday morning in an eloquent and interesting sermon delivered at the Sacred Heart church by Father Donlon, president of Georgetown university, who is in Atlanta for the purpose of organizing an alumni association of the institution of which he is the head.

The prominent minister and educator compared the life of the church to that of Christ. "As he was tempted so is the church," he said, "but she has the promise that the gates of hell will not prevail against her.

"The first temptation of the church was sensuality. This came after she had conquered Rome and for a while Rome came near conquering the church by sensuality and by luxury, invading the sanctuary and threatening to destroy her vitality.

First Temptation Overcome.

"But this temptation was overcome by the austerity of the cenobite and the sanctity of the doctors of the church.

"The second temptation came in the tendency to worldliness and temporal power, which followed as kings and princes of Europe entered the church and even the sanctuary, led on by their greed for worldly power and for wealth.

"To combat this temptation monastic orders were established and worldliness was overcome by the lives of poverty and of lowliness, typified by a St. Francis, Dominic and Bernard.

"The third temptation is pride, the great danger of the present day, when men are prone to deify intellect and to cast away faith, which is the substance of things that appeareth not. The tendency of the day is to accept only that which has been proved by science.

Another Charge Answered.

"Hence the charge is frequently made that the church is narrow, medieval and behind the times. All these, in a sense, are true. The church is as narrow as truth must be, if she is to be the guardian of truth, but she is as broad as the world where the truth of dogma is not involved.

"She is medieval, but more than that, she is apostolic, tracing her lineage back to the disciples. Otherwise she could not claim to be the church of Christ.

"She is behind the times, but as one guiding the world, warding off error, she waits to accept whatever the world will prove to be true. This must be met by the laity, who must educate themselves to understand their faith and to be ready to give explanation of the faith that is in them.

"The type of the modern Catholic layman is Pasteur, one of the greatest scientists of the past century, who was proud of his simple Catholic faith, and who gloried in it."

WHITFIELD PLANS FOR YEAR'S PLANTING

Dalton, Ga., February 7.—(Special.) A meeting of the teachers of Whitfield county and the corn, pig and canning clubs' members was held at the courthouse yesterday morning, and was largely attended. Plans were formulated for the ensuing year, and several enthusiastic talks were made, among the speakers being Dr. William Bradford, of Cedartown, Ga., and James E. Downing, of Athens, Ga., the latter having charge of the organization of pig clubs.

"BLIND TIGER" KILLED IN ATTACK ON RAINES

Negroes Attacked Man With Knives Because He Refused to Buy Liquor From Them.

The police learned early Sunday morning that one of the Decatur street "blind tigers," who brutally attacked Robert Raines, of 75 Berean avenue, at the corner of Pratt and Decatur streets, about 1 o'clock Sunday morning, was killed in the combat with Raines, who was probably mortally stabbed.

Raines was going home, when two negroes assaulted him upon his refusal to buy some blind tiger liquor from them. His calls for "police" brought to his assistance C. R. McDermott, nightwatchman of the Georgia Railway and Power company's trouble house, at 211 Decatur street.

McDermott, seeing that two negroes, armed with big dirks, were cutting to death an unarmed white man, opened fire on the assailants with his derringer.

Dead Negro Is Found.

Four hours after the attack the police discovered a dead negro at No. 12 Pratt street. A thin trail of blood left by the fleeing negroes was tracked to this house. The dead negro's name was John Furr, a notorious Decatur street blind tiger.

Rich Daniel, of No. 14 Pratt street, has been arrested by the police in connection with the stabbing of Raines. He is being held without bond.

A coroner's inquest, held over Furr's body, Sunday morning at the Grady hospital, where Raines is incarcerated with his wounds, exonerated McDermott, of the charge of murder that was booked against him by the police when the dead negro's body was found. The verdict returned stated that McDermott had committed a justifiable homicide, shooting in defense of another.

Scene of Crimes.

Atlanta Saturday night and early Sunday morning was the scene of many crimes, despite the vigilance of the police.

White citizens were not alone in suffering at the hands of the "lawless element" of the city. Kellogg Williams, negro, was held up at the point of a pistol on Piedmont avenue by a negro highwayman, who wore a mask. He was robbed of every cent he had, $5.15, his pocket knife, and finally his shoes.

The front door of the Millican Soda company, 111 West Mitchell street, was opened and the store burglarized. One hundred and forty packs of cigarettes were stolen, and also three boxes of cigars, and a large quantity of snuff and chewing gun.

Gas meter thieves got busy during the night on Plum street, burglarizing two houses and robbing the gas meters of the change in them. The first gas meter robbed was in the home of G. F. Haney, 182 Plum, where $1.75 was secured as loot. Only 75 cents was found in the gas meter in the residence of C. S. Norris, 171 Plum street.

World's Biggest Choir Furnished by Atlanta For Chapman Meetings

Atlanta has the distinction of furnishing the largest choir for Alexander-Chapman meetings gotten together in ten years, the next largest choir being organized at Melbourne, Australia, with 1,200 members. The Atlanta choir already has 1,300 singers, over a thousand assembling Sunday afternoon at 3:30 o'clock at the Baptist Tabernacle. J. R. Regnas has charge of the choir directing.

3,000 NEGRO CHILDREN BARRED FROM SCHOOLS

B. R. Holmes, president of the Holmes institute, a charitable and industrial institution for colored children, addressed a congregation of colored citizens Sunday morning at 11 o'clock in Radcliffe Memorial Presbyterian church, of which Rev. Milton Thompson is pastor.

President Holmes said that the colored citizens of Atlanta had organized a campaign which will best fit them for the duties of life and useful citizenship. He said that more than three thousand colored children in the city are out of the public schools either on account of the crowded condition or the inability of their parents to purchase the necessary books, clothing, etc., for such education.

The institute is in need of funds to meet its past and present obligations. It has been indorsed by the board of education finance committee, and many of the best white citizens of the city.

DR. WILMER PREACHES ON GOD'S HOSPITALITY

A large audience heard the sermon last night at the Savoy theater of Dr. C. B. Wilmer, rector of St. Luke's Episcopal church, on "The Hospitality of God." Dr. Wilmer used as his text the parable of the wedding feast, bringing out in his masterly style what people lose by refusing to put themselves in right relation with God.

An acceptance of this invitation, he said, would solve the problem of labor and capital. In speaking of the Episcopal church, he said that the church was not a company of good people who believed they had a free pass to heaven, but rather a place for sinners who, admitting their failings, repent and endeavor by the grace of God to live better lives.

Owing to the large interest being shown in these theater meetings, they will be continued indefinitely.

SUFFRAGISTS ANNOUNCE PROGRAM FOR THE WEEK

The suffrage program for this week is as follows:

Neighborhood Teas Monday Afternoon—Mrs. Harry C. Moore, 167 Angier avenue; headquarters, 217 Peachtree street; Mrs. R. K. Rambo, 440 W. Peachtree street; Mrs. Hinton Clarke, 966 Highland avenue.

Committees—Executive, 217 Peachtree, Tuesday at 10 a. m.

The Dansant—Vesper club, Saturday afternoon 5 to 7 o'clock.

Perry Is Camilla's P. M.

Thomasville, Ga., February 7.—(Special.)—T. B. Perry, of Camilla, has received his commission as postmaster of Camilla, and has entered actively upon his duties as such. This office has been in dispute for a year past, and Mr. Perry's commission has been held up.

REST GLASSES.

The very best eyes give out on hard, close, continuous work. A pair of properly fitted glasses will preserve your eyes and keep them from failing rapidly. They are your greatest business and pleasure asset; take care of them. A. K. Hawkes Co., Opticians, 14 Whitehall St.—(adv.)

UNUSUAL INTEREST SHOWN IN SCHOOLS

Executive Committee of Twenty-Five to Conduct Campaign Will Be Named Today.

Echoes of Saturday's monster mass meeting of Atlanta women, which marked the launching of the campaign for "Better Schools for Atlanta," were heard throughout the city yesterday.

After church services, on the streets; in fact, everywhere, women met and talked over the happenings of the day. Saturday's meeting which overflowed the assembly hall of Carnegie library and taxed the seating capacity of the Congregational church, created great enthusiasm, and leaders said Sunday night that they expected the movement to spread to every section of the city.

Considerable interest is centered today on the appointment of the executive committee of twenty-five and provided for in the resolutions introduced at the mass meeting by Mrs. William Lawson Peel. These resolutions were unanimously adopted, typifying the tremendous amount of interest already created by the campaign.

Representative Committee.

Mrs. Thornwell Jacobs, chairman of the mass meeting, declared Sunday that it will be her aim to make the executive committee representative of every parent-teacher association, every woman's club and every association of women which has an interest in solving the problems which confront the city administration in the matter of providing adequate accommodations for children.

"We want to interest the most active and aggressive women of Atlanta in the movement," said Mrs. Jacobs. "We want them on the committees, and we want them to come to the meetings and aid in spreading among other women the aims and objects of the campaign.

"A great many persons have gained the impression that political matters will be injected into the campaign," Mrs. Jacobs continued. "This impression is erroneous. We are going to work in the interest of the school children alone. The others can fight their battles the best they know how. It is the little children of Atlanta who are helpless and who demand our support, and they are the ones who are going to get the benefit of our best efforts."

Every Woman Should Aid.

Mrs. R. M. Walker, president of the Parent-Teacher Association of the Tenth Street school, is secretary of the temporary organization perfected at Saturday's meeting. She explained to The Constitution Saturday that she was anxious to have every woman in the city send in her name to be enrolled as a worker or sympathizer of the campaign.

Just as soon as the executive committee is appointed Mrs. Jacobs will call a meeting to organize the committee, and an active campaign through committees will be planned. The first move, however, will be to get each ward and school neighborhood organized or interested in the campaign. Later on a campaign of education will be launched.

This move will be for the purpose of bringing to the attention of every mother and father and every parent who has a child at school conditions which exist at the particular school the child of the house attends, also to point out conditions at other schools.

According to a recent investigation made by members of council in certain neighborhoods of the city, a pitifully low percentage of parents were found who were thoroughly acquainted with actual conditions at the school house where their children attended, and it was pointed out that it is this disinterestedness on the part of parents that has caused the schools to degenerate and become congested.

Congestion Is Certain.

As was pointed out by Mrs. Walker at Saturday's meeting, there will be 1,200 children ready for promotion from the grammar schools to the high schools next June. Only 600 at the most can be taken care of in the high schools. The other 600 will either have to be turned away or tuck away their certificates and go to work.

Similar conditions will prevail in the grammar schools where every child whose parents are taxpayers have a right to demand that the city give them a seat in the public schools. Many will be turned away or be forced to attend double sessions and have a makeshift education thrust on them.

D. A. R. Members to Discuss Program for Big Convention

There will be an important meeting of officers and members of Joseph Habersham chapter, Daughters of the American Revolution, in the parlors of the Ansley hotel at 10:30 o'clock Tuesday morning.

Mrs. St. Elmo Massengale, secretary of the chapter, has requested every member to attend the meeting. Plans for entertaining the state delegations of the Daughters of the American Revolution will be discussed, and the entire program for convention will be outlined.

The convention will begin Tuesday afternoon and will last several days. According to Mrs Massengale, there will be more than 150 representatives and delegates in attendance.

"Delegates representing every section of the state have been entertained in great shape by other chapters," said Mrs. Massengale Sunday, "and it is the duty of the members of Joseph Habersham chapter to see to it that nothing is left undone to make the convention the most enjoyable ever planned."

The chapter has planned an excellent program. Governor and Mrs. John M. Slaton will entertain at a reception Tuesday afternoon.

Most of the delegates will arrive in Atlanta Monday morning. Quite a few reached here Sunday night and were entertained by members of the local chapters.

Mrs. Joseph Perdue, regent, and Mrs. W. L. Peel, honorary regent, and other officers and members of the chapter have been active making preparations for the convention.

McConnell Is Named President of Trustees Of Baptist Hospital

Dr. F. C. McConnell was elected president of the board of trustees of the Georgia Baptist hospital at an election of officers held last week. Three other new members appointed on the board were Dr. John E. White, pastor Second Baptist church; Dr. A. C. Cree, newly-elected secretary of the mission board of the Georgia Baptist convention, and Hugh M. Willet. A new medical staff was appointed as follows:

General surgery, E. G. Jones, T. C. Davidson, R. R. Kime, W. S. Goldsmith; gynecology, F. K. Boland, W. A. Selman, O. H. Matthews, M. T. Benson; genito-urinary surgery, J. T. Bloyd, D. Y. Sago; eye, ear, nose and throat, W. E. Campbell, Dunbar Roy; oral and dental surgery, Robin Adair; general medicine, M. G. Campbell, C. W. Stickler; gastro internology, George M. Niles, George Mizell; pediatrics, George Kent Varden; pathology and bacteriology, A. H. Bunce.

A committee was appointed to select a new site and to secure plans for new, modern and equipped buildings, which, when fully completed, will have about 500 beds. The plan projected some months ago for a greater Baptist hospital will now be vigorously prosecuted among the Baptists of the state.

"Uncle Nat" Snelson, Troup's Grand Old Man, Passes to His Reward

LaGrange, Ga., February 7.—(Special.)—LaGrange's oldest citizen was buried Saturday afternoon when the remains of "Uncle Nat" Snelson were laid to rest at Hillview cemetery. He passed his ninety-fourth year last Christmas day, and until the past year had boasted of being as hearty and hale as a "sweet sixteen."

"Uncle Nat" died Friday morning at 9 o'clock at his home in this city after a very short period of weakness, more than illness. The funeral services were conducted at his home by Rev. J. H. Bales, assisted by Rev. Lucien Roper, and Masonic burial services followed immediately.

He moved to Troup county in 1839, at the age of 19, and helped to build the first brick house that was erected in the county. "Uncle Nat" also helped to build the first steam sawmill in 1849. In 1850 he married Miss Jane Allen, a native of Troup county, who died about eleven years ago.

During the civil war he was detailed by Governor Brown to take charge of a lot of the state's property, and was finally placed in charge of a salt works in Virginia. He helped to build the Atlanta and West Point railroad.

The United States in 1913 produced 231,757 tons of explosives.

Mother and Sister Held For Helping in Escape Of Girl at Martha's Home

A young mother with her 18-months-old baby escaped Sunday morning from the Martha's home. The mother was Vera Cartledge, and was arrested Sunday evening at the home of her mother and sister, Mrs. D. A. Cochran, and Mrs. T. O. Bryant, 557½ Marietta street. Her mother and sister were arrested also, charged with abetting in the escape, and the three are now at police station.

Douglas City Court.

Waycross, Ga., February 7.—(Special.)—Because of the two weeks of superior court this month, city court in Douglas has been postponed until the third Monday in March. Superior court reconvenes tomorrow to tackle the criminal docket.

Jack and Bob say:

"A Perfect Figure"

is not essential to perfect appearing clothes.

If all men were built on the same specifications there'd be no need for tailors and you could order a suit by number. Our very existence depends on the perfect service we render in fitting men of various dimensions and tastes.

We **drape** the tall, slim man and **fit** the short, fat man—we use judgment.

At $35 for the suit we are quite sure there are no better clothes to be had anywhere.

Let us **prove** it to **you.**
